

SGI U.S. Large Cap Core ETF
(Ticker: NYSE Arca, Inc. – SGLC)

SGI Dynamic Tactical ETF
(Ticker: Nasdaq National Stock Market LLC – DYTA)

Each a series of The RBB Fund, Inc.

620 South Main Street, Bountiful, Utah 84010

**Statement of
Additional Information
Dated March 24, 2023**

The SGI U.S. Large Cap Core ETF ("Large Cap Core Fund") and SGI Dynamic Tactical ETF ("Dynamic Tactical Fund") (each a "Fund" and together, the "Funds") are diversified series of The RBB Fund, Inc. (the "Company"), an open-end management investment company organized as a Maryland corporation on February 29, 1988.

Summit Global Investments, LLC serves as the investment adviser to the Funds and SG Trading Solutions, LLC serves as the investment sub-adviser to the Funds.

Information about the Funds is set forth in the prospectus dated March 24, 2023 (the "Prospectus") and provides the basic information you should know before investing. To obtain a copy of the Prospectus and/or the Funds' Annual and Semi-Annual Reports, please write to SGI Funds, P.O. Box 701, Milwaukee, WI 53201-0701, or call 1-800-617-0004. This Statement of Additional Information ("SAI") is not a prospectus but contains information in addition to and more detailed than that set forth in the Prospectus. It is incorporated by reference in its entirety into the Prospectus. This SAI is intended to provide you with additional information regarding the activities and operations of the Funds and the Company, and it should be read in conjunction with the Prospectus.

FUND HISTORY

The Company is an open-end management investment company currently consisting of 48 separate portfolios. The Company is registered under the Investment Company Act of 1940, as amended (the “1940 Act”), and was organized as a Maryland corporation on February 29, 1988. This SAI pertains to shares of the Large Cap Core Fund and Dynamic Tactical Fund. Summit Global Investments, LLC (the “Adviser”) serves as the investment adviser to the Funds and SG Trading Solutions, LLC (the “Sub-Adviser”), serves as the investment sub-adviser to the Funds.

Each Fund offers and issues shares at its net asset value per share (“NAV”) only in aggregations of a specified number of shares (each a “Creation Unit”). Each Fund also generally offers and issues shares in exchange for a basket of securities (“Deposit Securities”) together with the deposit of a specified cash payment (“Cash Component”). The Company reserves the right to permit or require the substitution of a “cash in lieu” amount (“Deposit Cash”) to be added to the Cash Component to replace any Deposit Security. The shares of the U.S. Large Cap Core ETF are listed on the NYSE Arca, Inc. and the shares of the SGI Dynamic Tactical ETF’s Shares are listed for trading on the Nasdaq National Stock Market LLC (NYSE Arca, Inc. and Nasdaq National Stock Market LLC are collectively referred to as the “Exchange”) and trade on the Exchange at market prices. These prices may differ from the shares’ NAVs. The shares are also redeemable only in Creation Unit aggregations, and generally in exchange for portfolio securities and a specified cash payment. A Creation Unit of each Fund consists of at least 5,000 Shares.

Shares of each Fund may be issued in advance of receipt of Deposit Securities subject to various conditions including a requirement to maintain on deposit with the Company cash at least equal to a specified percentage of the market value of the missing Deposit Securities as set forth in the Participant Agreement (as defined below). The Company may impose a transaction fee for each creation or redemption (the “Transaction Fee”). In all cases, such fees will be limited in accordance with the requirements of the Securities and Exchange Commission (the “SEC”) applicable to management investment companies offering redeemable securities. Each Fund may charge, either in lieu or in addition to the fixed creation or redemption Transaction Fee, a variable fee for creations and redemptions in order to cover certain brokerage, tax, foreign exchange, execution, market impact and other costs and expenses related to the execution of trades resulting from such transaction, up to a maximum of 2.00% of the NAV per Creation Unit, inclusive of any Transaction Fees charged (if applicable).

Each Fund is an actively-managed exchange-traded fund (“ETF”) that seeks long-term capital appreciation. The Large Cap Core Fund operates pursuant to an exemptive order from the Securities and Exchange Commission (“SEC”) issued on March 15, 2023, and the Dynamic Tactical Fund operates pursuant to an exemptive order from the SEC issued on March 15, 2023 (collectively, the “Orders”). In many respects each Fund operates similarly to traditional ETFs. Each Fund issues and redeems shares on a continuous basis at NAV in aggregations of a specified number of shares called “Creation Units”. Creation Units generally are issued in exchange for portfolio securities and an amount of cash. Shares are listed and traded on the Exchange. Shares trade in the secondary market at market prices that may differ from the shares’ NAV. Shares are not individually redeemable, but are redeemable only in Creation Unit aggregations, also in exchange for portfolio securities and an amount of cash. Shareholders who are not Authorized Participants (as defined herein), therefore, will not be able to purchase or redeem shares directly with or from a Fund. Instead, most shareholders who are not Authorized Participants will buy and sell shares in the secondary market through a broker.

Each Fund also has some novel features that differentiate it from traditional ETFs. Unlike traditional ETFs that publish their portfolio holdings on a daily basis, each Fund does not publicly disclose the composition of its portfolio each business day, which may affect the price at which shares of the Fund trade in the secondary market. Instead, each Fund publishes each business day on its website a portfolio transparency substitute - the “Portfolio Reference Basket” or “Proxy Portfolio”—which is designed to closely track the daily performance of the Fund but is not the Fund’s actual portfolio (“Actual Portfolio”). The Adviser, on behalf of the Large Cap Core Fund and the Dynamic Tactical Fund, has entered into license agreements with NYSE Group, Inc. and Blue Tractor Group, LLC, respectively, in order to operate each Fund under the Proxy Portfolio and Portfolio Reference Basket structure, respectively.

Under the terms of the Orders, each Fund’s investments are limited to the following: ETFs, exchange-traded notes, exchange-traded common stocks, exchange-traded preferred stocks, exchange-traded American Depositary Receipts (“ADRs”), exchange-traded real estate investment trusts, exchange-traded commodity pools, exchange-traded metals trusts, exchange-traded currency trusts and exchange-traded futures, in each case that are traded on a U.S. securities exchange; common stocks listed on a foreign exchange that trade on such exchange contemporaneously with a Fund’s shares; exchange-traded futures that are traded on a U.S. futures exchange contemporaneously with a Fund’s shares; and cash and cash equivalents (which are short-term U.S. Treasury securities, government money market funds, and repurchase agreements). The Funds will not purchase any securities that are illiquid investments (as defined in Rule 22e-4(a)(8) of the 1940 Act) at the time of purchase. In addition, pursuant to the Order, the Funds will not: borrow for investment purposes; hold short positions; or invest in “penny stocks” (as defined in Rule 3a51-1 under the Securities Exchange Act of 1934 (“Exchange Act”).

The Portfolio Reference Basket/Proxy Portfolio also generally constitutes the names and quantities of instruments to be exchanged with a Fund for both purchases and redemptions of Fund shares, as described further under the heading “Purchase and Redemption of Creation Units” below.

The publication of the Portfolio Reference Basket/Proxy Portfolio is not the same level of transparency as the publication of the full portfolio by a fully transparent active ETF, and could cause a Fund’s Shares to have wider spreads and larger premiums/discounts than would be seen for a fully transparent active ETF using the same investment strategies.

INVESTMENT POLICIES AND PRACTICES

Each Fund's investment objective and principal investment strategies is described in the Prospectus. The sections below describe some of the different types of investments that may be made by each Fund as part of its non-principal investment strategy. The following information supplements, and should be read in conjunction with, the Prospectus.

With respect to each Fund's investments, unless otherwise noted, if a percentage limitation on investment is adhered to at the time of investment or contract, a subsequent increase or decrease as a result of market movement or redemption will not result in a violation of such investment limitation.

The Dynamic Tactical Fund will implement its investment strategy by investing in securities of affiliated and unaffiliated open-end mutual funds, closed-fund funds, and ETFs (collectively, "Underlying Funds"). Certain of the descriptions of the investments or techniques set forth below reflect that the investments and techniques are occurring indirectly through investments in Underlying Funds.

Principal Investment Policies and Risks

American, European and Global Depositary Receipts. An Underlying Fund may hold ADRs as well as other "hybrid" forms of ADRs, including European Depositary Receipts ("EDRs") and Global Depositary Receipts ("GDRs"), which are certificates evidencing ownership of shares of a foreign issuer. These certificates are issued by depository banks and generally trade on an established market in the United States or elsewhere. The underlying shares are held in trust by a custodian bank or similar financial institution in the issuer's home country. The depository bank may not have physical custody of the underlying securities at all times and may charge fees for various services, including forwarding dividends and interest and corporate actions. ADRs are alternatives to directly purchasing the underlying foreign securities in their national markets and currencies. However, ADRs continue to be subject to many of the risks associated with investing directly in foreign securities including increased market, illiquidity, currency, political, information and other risks, and even where traded in U.S. dollars are subject to currency risk if the underlying security is traded in a foreign currency. GDRs, EDRs, and other similar instruments may be issued by a U.S. or non-U.S. entity and may be traded in other currencies. GDRs are tradable both in the United States and Europe and are designed for use throughout the world. EDRs are issued in bearer form and are designed for use in European securities markets. See "Foreign Securities" for more information on the risks of investing in foreign securities.

Cyber Security Risk. Each Fund and its service providers may be prone to operational and information security risks resulting from breaches in cyber security. A breach in cyber security refers to both intentional and unintentional events that may cause a Fund to lose proprietary information, suffer data corruption, or lose operational capacity. Breaches in cyber security include, among other behaviors, stealing or corrupting data maintained online or digitally, denial of service attacks on websites, the unauthorized release of confidential information or various other forms of cyber-attacks. Cyber security breaches affecting the Funds or the Adviser, custodian, transfer agent, intermediaries and other third-party service providers may adversely impact the Funds. For instance, cyber security breaches may interfere with the processing of shareholder transactions, impact a Fund's ability to calculate its net asset value ("NAV"), cause the release of private shareholder information or confidential business information, impede trading, subject the Funds to regulatory fines or financial losses and/or cause reputational damage. A Fund may also incur additional costs for cyber security risk management purposes. Similar types of cyber security risks are also present for issuers of securities in which a Fund may invest, which could result in material adverse consequences for such issuers and may cause the Fund's investment in such companies to lose value. While the Funds and their service providers have established information technology and data security programs and have in place business continuity plans and other systems designed to prevent losses and mitigate cyber security risk, there are inherent limitations in such plans and systems, including the possibility that certain risks have not been identified or that cyber-attacks may be highly sophisticated. Furthermore, the Funds have limited ability to prevent or mitigate cyber security incidents affecting third-party service providers, and such third-party service providers may have limited indemnification obligations to the Funds, the Underlying Funds, or their respective investment adviser.

Equity Securities. Equity securities represent ownership interests in a company and consist of common stocks, preferred stocks, warrants to acquire common stock, and securities convertible into common stock. Investments in equity securities in general are subject to market risks that may cause their prices to fluctuate over time. Fluctuations in the value of equity securities in which a Fund or an Underlying Fund invests will cause the NAV of the Fund or Underlying Fund to fluctuate. The Funds and Underlying Funds purchase equity securities traded in the U.S. on registered exchanges or the over-the-counter market. Equity securities are described in more detail below:

- **Common Stock.** Common stock represents an equity or ownership interest in an issuer. In the event an issuer is liquidated or declares bankruptcy, the claims of owners of bonds and preferred stock take precedence over the claims of those who own common stock.
- **Preferred Stock.** Preferred stock represents an equity or ownership interest in an issuer that pays dividends at a specified rate and that has precedence over common stock in the payment of dividends. In the event an issuer is liquidated or declares bankruptcy, the claims of owners of bonds take precedence over the claims of those who own preferred and common stock.
- **Warrants.** Warrants are instruments that entitle the holder to buy an equity security at a specific price for a specific period of time. Changes in the value of a warrant do not necessarily correspond to changes in the value of its underlying security. The price of a warrant may be more volatile than the price of its underlying security, and a warrant may offer greater potential for capital appreciation as well as capital loss. Warrants do not entitle a holder to dividends or voting rights with respect to the underlying security and do not represent any rights in the assets of the issuing company. A warrant ceases to have value if it is not exercised prior to its expiration date. These factors can make warrants more speculative than other types of investments.

- **Convertible Securities.** Convertible securities are bonds, debentures, notes, preferred stocks or other securities that may be converted or exchanged (by the holder or by the issuer) into shares of the underlying common stock (or cash or securities of equivalent value) at a stated exchange ratio. A convertible security may also be called for redemption or conversion by the issuer after a particular date and under certain circumstances (including a specified price) established upon issue. If a convertible security held by a Fund or an Underlying Fund is called for redemption or conversion, the Fund or Underlying Fund could be required to tender it for redemption, convert it into the underlying common stock, or sell it to a third party.

Convertible securities generally have less potential for gain or loss than common stocks. Convertible securities generally provide yields higher than the underlying common stocks, but generally lower than comparable non-convertible securities. Because of this higher yield, convertible securities generally sell at a price above their “conversion value,” which is the current market value of the stock to be received upon conversion. The difference between this conversion value and the price of convertible securities will vary over time depending on changes in the value of the underlying common stocks and interest rates. When the underlying common stocks decline in value, convertible securities will tend not to decline to the same extent because of the interest or dividend payments and the repayment of principal at maturity for certain types of convertible securities. However, securities that are convertible other than at the option of the holder generally do not limit the potential for loss to the same extent as securities convertible at the option of the holder. When the underlying common stocks rise in value, the value of convertible securities may also be expected to increase. At the same time, however, the difference between the market value of convertible securities and their conversion value will narrow, which means that the value of convertible securities will generally not increase to the same extent as the value of the underlying common stocks. Because convertible securities may also be interest-rate sensitive, their value may increase as interest rates fall and decrease as interest rates rise. Convertible securities are also subject to credit risk, and are often lower-quality securities.

- **Small and Medium Capitalization Issuers.** Investing in equity securities of small and medium capitalization companies often involves greater risk than is customarily associated with investments in larger capitalization companies. This increased risk may be due to the greater business risks of smaller size, limited markets and financial resources, narrow product lines and frequent lack of depth of management. The securities of smaller companies are often traded in the over-the-counter market and even if listed on a national securities exchange may not be traded in volumes typical for that exchange. Consequently, the securities of smaller companies are less likely to be liquid, may have limited market stability, and may be subject to more abrupt or erratic market movements than securities of larger, more established companies or the market averages in general.

Exchange-Traded Funds (“ETFs”). Each Fund may invest in open-end investment companies whose shares are listed for trading on a national securities exchange or the Nasdaq Market System. ETF shares typically trade like shares of common stock and provide investment results that generally correspond to the price and yield performance of the component stocks of a widely recognized index. There can be no assurance, however, that this can be accomplished, as it may not be possible for an ETF to replicate the composition and relative weightings of the securities of its corresponding index. Additionally, some ETFs are actively-managed by an investment adviser and/or sub-advisers and do not seek to provide investment results that correspond to an index.

ETFs are subject to risks of an investment in a broadly based portfolio of common stocks, including the risk that the general level of stock prices may decline, thereby adversely affecting the value of such investment. An actively-managed ETF may not perform as well as its investment adviser and/or sub-advisers expect, and/or the actively-managed ETF’s portfolio management practices might not work to achieve the desired result. Individual shares of an ETF are generally not redeemable at their NAV, but trade on an exchange during the day at prices that are normally close to, but not the same as, their NAV. There is no assurance that an active trading market will be maintained for the shares of an ETF or that market prices of the shares of an ETF will be close to their NAVs. The existence of extreme market volatility or potential lack of an active trading market for an ETF’s shares could result in such shares trading at a significant premium or discount to their NAV. In addition, the purchase of shares of ETFs may result in duplication of expenses, including advisory fees, in addition to a mutual fund’s own expenses.

Investments in securities of ETFs beyond the limitations set forth in Section 12(d)(1)(A) of the 1940 Act are subject to certain terms and conditions described below. Section 12(d)(1)(A) states that a mutual fund may not acquire shares of other investment companies, such as ETFs, in excess of: 3% of the total outstanding voting stock of the investment company; 5% of its total assets invested in the investment company; or more than 10% of the fund’s total assets were to be invested in the aggregate in all investment companies. The purchase of shares of ETFs may result in duplication of expenses, including advisory fees, in addition to a mutual fund’s own expenses. In October 2020, the SEC adopted certain regulatory changes and took other actions related to the ability of an investment company to invest in another investment company. The changes include, among other things, amendments to Rule 12d1-1, the rescission of Rule 12d1-2, and the adoption of Rule 12d1-4 under the 1940 Act (“Rule 12d1-4”) which allows funds to invest in other investment companies in excess of some of the limitations discussed above, subject to certain limitations and conditions. An acquiring fund relying on Rule 12d1-4 must enter into a fund of funds investment agreement with the acquired fund. Rule 12d1-4 outlines the requirements for fund of funds agreements and specifies certain reporting responsibilities of the acquiring fund’s adviser. Rule 12d1-4 became effective January 19, 2021, and rescinded certain types of relief for funds of funds that invest in other investment companies in excess of the limitations under Section 12(d)(1) of the 1940 Act, as discussed above and below, as of January 19, 2022. The Funds expect to rely on Rule 12d1-4 to the extent the Adviser deems such reliance necessary or appropriate.

Foreign Custody Risk. An Underlying Fund may hold foreign securities and cash with foreign banks, agents, and securities depositories appointed by the Underlying Fund’s custodian (each a “Foreign Custodian”). Some Foreign Custodians may be recently organized or new to the foreign custody business. In some countries, Foreign Custodians may be subject to little or no regulatory oversight over or independent evaluation of their operations. Further, the laws of certain countries may place limitations on an Underlying Fund’s ability to recover its assets if a Foreign Custodian enters bankruptcy. Investments in emerging markets may be subject to even greater custody risks than investments in more developed markets. Custody services in emerging market countries are very often undeveloped and may be considerably less well-regulated than in more developed countries, and thus may not afford the same level of investor protection as would apply in developed countries. Emerging market countries are countries that major international financial institutions, such as the World Bank, generally consider to be less economically mature than developed nations. Emerging market countries can include every nation in the world except the United States, Canada, Japan, Australia, New Zealand and most countries located in Western Europe.

Foreign Securities. Investments in foreign securities involve higher costs than investments in U.S. securities, including higher transaction costs as well as the imposition of additional taxes by foreign governments. In addition, foreign investments may include additional risks associated with more or less foreign government regulation; less public information; less stringent investor protections; less stringent accounting, corporate governance, financial reporting and disclosure standards; and less economic, political and social stability in the countries in which an Underlying Fund may invest. Volume and liquidity in most foreign bond markets are less than in the United States and, at times, volatility or price can be greater than in the United States. Future political and economic information, the possible imposition of withholding taxes on interest income, the possible seizure or nationalization of foreign holdings, the possible establishment of exchange controls, or the adoption of other governmental restrictions, might adversely affect the payment of principal and interest on foreign obligations. Inability to dispose of securities due to settlement problems could result either in losses to an underlying investment company due to subsequent declines in value of the securities, or, if the underlying investment company has entered into a contract to sell the securities, could result in possible liability to the purchaser. Individual foreign economies may differ favorably or unfavorably from the U.S. economy in such respects as growth or gross national product, rate of inflation, capital reinvestment, resource self-sufficiency and balance of payments position. Fixed commissions on foreign securities exchanges are generally higher than negotiated commissions on U.S. exchanges. There is generally less government supervision and regulation of securities exchanges, brokers, dealers and listed companies than in the United States.

Settlement mechanics may be slower or less reliable than within the United States, thus increasing the risk of delayed settlements of portfolio transactions or loss of certificates for portfolio securities. Foreign markets also have different clearance and settlement procedures, and in certain markets there have been times when settlements have been unable to keep pace with the volume of securities transactions, making it difficult to conduct such transactions. Such delays in settlement could result in temporary periods when a portion of the assets of an underlying investment company is uninvested and no return is earned thereon. The inability of an underlying investment company to make intended security purchases due to settlement problems could cause the underlying investment company to miss attractive investment opportunities.

Each Fund values its securities and other assets in U.S. dollars. As a result, if an Underlying Fund invests in securities denominated in foreign currencies, the NAV of the Underlying Fund's shares may fluctuate with U.S. dollar exchange rates as well as the price changes of the Underlying Fund's securities in the various local markets and currencies. Thus, an increase in the value of the U.S. dollar compared to the currencies in which the Underlying Fund makes its investments could reduce the effect of increases and magnify the effect of decreases in the price of the Underlying Fund's securities in their local markets. Conversely, a decrease in the value of the U.S. dollar may have the opposite effect of magnifying the effect of increases and reducing the effect of decreases in the prices of an Underlying Fund's securities in its foreign markets. In addition to favorable and unfavorable currency exchange rate developments, a Fund is subject to the possible imposition of exchange control regulations or freezes on convertibility of currency.

If an Underlying Fund invests in obligations of foreign branches of U.S. banks (Eurodollars) and U.S. branches of foreign banks (Yankee dollars) or foreign branches of foreign banks, these investments involve risks that are different from investments in securities of U.S. banks, including potential unfavorable political and economic developments, different tax provisions, seizure of foreign deposits, currency controls, interest limitations or other governmental restrictions which might affect payment of principal or interest. An Underlying Fund may also invest in debt securities issued or guaranteed by foreign governments, including Yankee bonds, which are issued by foreign governments and their agencies and foreign corporations, but pay interest in U.S. dollars and are typically issued in the United States.

European countries can be affected by the significant fiscal and monetary controls that the European Economic and Monetary Union ("EMU") imposes for membership. Europe's economies are diverse, its governments are decentralized, and its cultures vary widely. Several European Union ("EU") countries, including Greece, Ireland, Italy, Spain and Portugal, have faced budget issues, some of which may have negative long-term effects for the economies of those countries and other EU countries. There is continued concern about national-level support for the euro and the accompanying coordination of fiscal and wage policy among EMU member countries. Member countries are required to maintain tight control over inflation, public debt, and budget deficit to qualify for membership in the EMU. These requirements can severely limit the ability of EMU member countries to implement monetary policy to address regional economic conditions.

In June 2016, the United Kingdom ("UK") approved a referendum to leave the EU. The withdrawal, known colloquially as "Brexit", was agreed to and ratified by the UK Parliament, and the UK left the EU on January 31, 2020. It began an 11-month transition period in which to negotiate a new trading relationship for goods and services that ended on December 31, 2020. The UK and EU reached an agreement, effective January 1, 2021, on the terms of their future trading relationship, which principally relates to the trading of goods. Further discussions are to be held between the UK and the EU in relation to matters not covered by the trade agreement, such as financial services. Brexit may have significant political and financial consequences for the Eurozone markets, including greater volatility in the global stock markets and illiquidity, fluctuations in currency and exchange rates, and an increased likelihood of a recession in the UK. At this time, the impact of Brexit cannot be predicted; however, market disruption in the EU and globally may have a negative effect on the value of a Fund's investments. Additionally, the risks related to Brexit could be more pronounced if one or more additional EU member states seek to leave the EU.

In February 2022, Russia commenced a military attack on Ukraine. The outbreak of hostilities between the two countries could result in more widespread conflict and the threat of wider-spread hostilities could have a severe adverse effect on the region and global economies, including significant negative impacts on the markets for certain securities and commodities, such as oil and natural gas. In addition, sanctions imposed on Russia by the United States and other countries, and any sanctions imposed in the future could have a significant adverse impact on the Russian economy and related markets. The price and liquidity of investments may fluctuate widely as a result of the conflict and related events. How long the armed conflict and related events will last cannot be predicted. These tensions and any related events could have a significant impact on Fund performance and the value of Fund investments, even beyond any direct exposure the Fund may have to issuers located in these countries.

Investing in Emerging Markets. *(Only a principal risk of the Dynamic Tactical Fund)* The Dynamic Tactical Fund may invest in Underlying Funds that invest in securities of issuers located in emerging markets. Securities in emerging markets are less liquid and subject to greater price volatility, and have a smaller market capitalization, than the U.S. securities markets. In certain countries, there may be fewer publicly traded securities and the market may be dominated by a few issues or sectors. Issuers and securities markets in such countries are not subject to as extensive and frequent accounting, financial and other reporting requirements or as comprehensive government regulations as are issuers and securities markets in the U.S. In particular, the assets and profits appearing on the financial statements of emerging country issuers may not reflect their financial position or results of operations in the same manner as financial statements for U.S. issuers. Substantially less information may be publicly available about emerging market issuers than is available about issuers in the United States.

Emerging markets are typically marked by a high concentration of market capitalization and trading volume in a small number of issuers representing a limited number of industries, as well as a high concentration of ownership of such securities by a limited number of investors. Certain emerging markets are in the earliest stages of their development. Even the markets for relatively widely traded securities in emerging markets may not be able to absorb, without price disruptions, a significant increase in trading volume or trades of a size customarily undertaken by institutional investors in the securities markets of developed countries. The limited size of many of these markets can cause prices to be erratic for reasons apart from factors that affect the soundness and competitiveness of the securities issuers. For example, prices may be unduly influenced by traders who control large positions in these markets. Additionally, market making and arbitrage activities are generally less extensive in such markets, which may contribute to increased volatility and reduced liquidity of such markets. The limited liquidity of emerging country securities may also affect the Fund's ability to value accurately its portfolio securities or to acquire or dispose of securities at the price and time it wishes to do so or in order to meet redemption requests.

Antiquated legal systems in certain emerging markets may have an adverse impact on the Fund's investments. For example, while the potential liability of a shareholder in a U.S. corporation for acts of the corporation is generally limited to the amount of the shareholder's investment, the notion of limited liability is less clear in certain emerging markets. Similarly, the rights of investors in emerging market companies may be more limited than those of shareholders in U.S. corporations, the legal remedies for investors in emerging markets may be more limited than the remedies available in the U.S. and the ability of U.S. authorities (e.g., SEC and the U.S. Department of Justice) to bring actions against bad actors may be limited.

Transaction costs, including brokerage commissions or dealer mark-ups, in emerging markets may be higher than in the United States and other developed securities markets. In addition, existing laws and regulations are often inconsistently applied. As legal systems in emerging countries develop, foreign investors may be adversely affected by new or amended laws and regulations. In circumstances where adequate laws exist, it may not be possible to obtain swift and equitable enforcement of the law.

Foreign investment in the securities markets of certain emerging countries is restricted or controlled to varying degrees. These restrictions may limit an Underlying Fund's investment in certain emerging countries and may increase the expenses of the Underlying Fund and, consequently, the Fund. Certain emerging countries require governmental approval prior to investments by foreign persons or limit investment by foreign persons to only a specified percentage of an issuer's outstanding securities or a specific class of securities which may have less advantageous terms (including price) than securities of the company available for purchase by nationals. In addition, the repatriation of both investment income and capital from emerging countries may be subject to restrictions which require governmental consents or prohibit repatriation entirely for a period of time. Even where there is no outright restriction on repatriation of capital, the mechanics of repatriation may affect certain aspects of the operation of an Underlying Fund. An Underlying Fund may be required to establish special custodial or other arrangements before investing in certain emerging countries.

Emerging countries may be subject to a substantially greater degree of economic, political and social instability than is the case in the United States and most Western European countries. This instability may result from, among other things, the following: (i) authoritarian governments or military involvement in political and economic decision making, including changes or attempted changes in governments through extra-constitutional means; (ii) popular unrest associated with demands for improved conditions; (iii) internal insurgencies; (iv) hostile relations with neighboring countries; (v) ethnic, religious and racial disaffection or conflict; and (vi) the absence of developed legal structures governing foreign private investments and private property. Such economic, political and social instability could disrupt the principal financial markets in which an Underlying Fund may invest and adversely affect the value of the Fund's assets. The Fund's investments can also be adversely affected by any increase in taxes or by political, economic or diplomatic developments.

The economies of emerging countries may differ unfavorably from the U.S. economy in growth of gross domestic product, rate of inflation, capital reinvestment, resources, self-sufficiency and balance of payments. Many emerging countries have experienced in the past, and continue to experience, high rates of inflation. In certain countries, inflation has at times accelerated rapidly to hyperinflationary levels, creating a negative interest rate environment and sharply eroding the value of outstanding financial assets in those countries. Other emerging countries, on the other hand, have recently experienced deflationary pressures and are in economic recessions. The economies of many emerging countries are heavily dependent upon international trade and are accordingly affected by protective trade barriers and the economic conditions of their trading partners. In addition, the economies of some emerging countries are vulnerable to weakness in world prices for their commodity exports. The Underlying Fund's income and, in some cases, capital gains from foreign stocks and securities will be subject to applicable taxation in certain of the countries in which it invests, and treaties between the U.S. and such countries may not be available in some cases to reduce the otherwise applicable tax rates.

Investment Company Shares.

Each Fund may invest in shares of other investment companies to the extent permitted by applicable law and subject to certain restrictions. These investment companies typically incur fees that are separate from those fees incurred directly by a Fund. A Fund's purchase of such investment company securities results in the layering of expenses, such that shareholders would indirectly bear a proportionate share of the operating expenses of such investment companies, including advisory fees, in addition to paying the Fund's expenses. Unless an exception is available, Section 12(d)(1)(A) of the 1940 Act prohibits a fund from (i) acquiring more than 3% of the voting shares of any one investment company, (ii) investing more than 5% of its total assets in any one investment company, and (iii) investing more than 10% of its total assets in all investment companies combined. These limits will not apply to the investment of uninvested cash balances in shares of registered or unregistered money market funds whether affiliated or unaffiliated. The foregoing exemption, however, only applies to an unregistered money market fund that (i) limits its investments to those in which a money market fund may invest under Rule 2a-7 of the 1940 Act, and (ii) undertakes to comply with all the other provisions of Rule 2a-7.

For hedging or other purposes, a Fund may invest in investment companies that seek to track the composition and/or performance of specific indexes or portions of specific indexes. Certain of these investment companies, known as ETFs, are traded on a securities exchange. The market prices of index-based investments will fluctuate in accordance with changes in the underlying portfolio securities of the investment company and also due to supply and demand of the investment company's shares on the exchange upon which the shares are traded. Index-based investments may not replicate or otherwise match the composition or performance of their specified index due to transaction costs, among other things.

Investments by a Fund in other investment companies, including ETFs, will be subject to the limitations of the 1940 Act. Pursuant to Rule 12d1-4 and procedures approved by the Board, a Fund may invest in ETFs beyond the limits contained in the 1940 Act.

Certain investment companies whose securities are purchased by a Fund may not be obligated to redeem such securities in an amount exceeding 1% of the investment company's total outstanding securities during any period of less than 30 days. Therefore, such securities that exceed this amount may be illiquid.

If required by the 1940 Act, the Funds expect to vote the shares of other investment companies that are held by it in the same proportion as the vote of all other holders of such securities.

The SEC has adopted revisions to the rules permitting funds to invest in other investment companies to streamline and enhance the regulatory framework applicable to fund of funds arrangements. While Rule 12d1-4 permits more types of fund of fund arrangements without reliance on an exemptive order or no-action letters, it imposes new conditions, including limits on control and voting of acquired funds' shares, evaluations and findings by investment advisers, fund investment agreements, and limits on most three-tier fund structures. Rule 12d1-4 went into effect on January 19, 2021. The rescission of the applicable exemptive orders and the withdrawal of the applicable no-action letters was effective on January 19, 2022.

Real Estate Investment Trust Securities. A Fund or an Underlying Fund may invest in real estate investment trusts ("REITs"). A REIT is a pooled investment vehicle that purchases primarily income-producing real estate, real estate-related loans or other real estate-related interests. The pooled vehicle then issues shares whose value and investment performance are dependent upon the investment performance of the underlying real estate-related investments. Individual REITs may own a limited number of properties and may concentrate in a particular region or property type. A REIT is a corporation, or a business trust that would otherwise be taxed as a corporation, which meets the definitional requirements of the Internal Revenue Code of 1986, as amended (the "Code"). The Code permits a qualifying REIT to deduct dividends paid, thereby effectively eliminating corporate level Federal income tax and making the REIT a pass-through vehicle for Federal income tax purposes. To meet the definitional requirements of the Code, a REIT must, among other things, invest substantially all of its assets in interests in real estate (including mortgages and other REITs) or cash and government securities, derive most of its income from rents from real property or interest on loans secured by mortgages on real property, and distribute to shareholders annually a substantial portion of its otherwise taxable income.

Generally, REITs can be classified as equity REITs, mortgage REITs and hybrid REITs. Equity REITs invest the majority of their assets directly in real property and derive their income primarily from rents and capital gains from appreciation realized through property sales. Mortgage REITs invest the majority of their assets in real estate mortgages and derive their income primarily from interest payments. Hybrid REITs combine the characteristics of both equity and mortgage REITs. The values of securities issued by REITs are affected by tax and regulatory requirements and by perceptions of management skill. They also are subject to heavy cash flow dependency, defaults by borrowers or tenants, self-liquidation and the possibility of failing to qualify for tax-free status under the Code or to maintain exemption from the 1940 Act. Unexpected high rates of default on the mortgages held by a mortgage pool may adversely affect the value of a mortgage-backed security and could result in losses to a mortgage REIT. The risk of such defaults is generally higher in the case of mortgage pools that include subprime mortgages. To the extent that a mortgage REIT's portfolio is exposed to lower-rated, unsecured or subordinated instruments, the risk of loss may increase, which may have a negative impact on the Fund.

The REITs in which the Underlying Funds may invest may be affected by economic forces and other factors related to the real estate industry. REITs are sensitive to factors such as changes in real estate values, property taxes, interest rates, cash flow of underlying real estate assets, occupancy rates, government regulations affecting zoning, land use and rents, and management skill and creditworthiness of the issuer. Companies in the real estate industry may also be subject to liabilities under environmental and hazardous waste laws. REITs whose underlying assets include long-term health care properties; such as nursing, retirement and assisted living homes, may be impacted by federal regulations concerning the health care industry. The Fund will indirectly bear its proportionate share of expenses, including management fees, paid by each REIT in which an Underlying Fund invests in addition to the expenses of the Fund. The Fund is also subject to the risk that the REITs in which an Underlying Fund invests will fail to qualify for tax-free pass-through of income under the Code, and/or fail to qualify for an exemption from registration as an investment company under the 1940 Act. Mortgage REITs may be affected by the quality of the credit extended. A REIT's return may be adversely affected when interest rates are high or rising.

Investing in REITs may involve risks similar to those associated with investing in small capitalization companies. REITs may have limited financial resources, may trade less frequently and in a limited volume and may be subject to more abrupt or erratic price movements than larger company securities. Historically, small capitalization stocks, such as REITs, have been more volatile in price than the larger capitalization stocks included in the S&P 500®.

Risk Considerations of Lower Rated Securities. *(Only a principal risk of the Dynamic Tactical Fund)* An Underlying Fund may invest in fixed income securities that are not investment grade but are rated as low as B by Moody's or B by S&P (or their equivalents). In the event that the rating on a security held in an Underlying Fund's portfolio is downgraded by a rating service, such action may be considered by the Underlying Fund's investment adviser in its evaluation of the overall investment merits of that security, but will not necessarily result in the sale of the security. The widespread expansion of government, consumer and corporate debt within the U.S. economy has made the corporate sector, especially cyclically sensitive industries, more vulnerable to economic downturns or increased interest rates. An economic downturn could severely disrupt the market for high yield fixed income securities and adversely affect the value of outstanding fixed income securities and the ability of the issuers to repay principal and interest.

An Underlying Fund may invest in high yield debt obligations, such as bonds and debentures, issued by corporations and other business organizations. High yield fixed income securities (commonly known as “junk bonds”) are considered speculative investments while generally providing greater income than investments in higher rated securities, involve greater risk of loss of principal and income (including the possibility of default or bankruptcy of the issuers of such securities) and may involve greater volatility of price (especially during periods of economic uncertainty or change) than securities in the higher rating categories. Since yields vary over time, no specific level of income can ever be assured.

The prices of high yield fixed income securities have been found to be less sensitive to interest rate changes than higher-rated investments but more sensitive to adverse economic changes or individual corporate developments. Also, during an economic downturn or substantial period of rising interest rates, highly leveraged issuers may experience financial stress, which would adversely affect their ability to service their principal and interest payment obligations, to meet projected business goals and to obtain additional financing. If the issuer of a fixed income security owned by an Underlying Fund defaulted, the Underlying Fund could incur additional expenses in attempting to obtain a recovery. In addition, periods of economic uncertainty and changes can be expected to result in increased volatility of market prices of high yield fixed income securities and an Underlying Fund’s NAV to the extent it holds such securities.

High yield fixed income securities also present risks based on payment expectations. For example, high yield fixed income securities may contain redemption or call provisions. If an issuer exercises these provisions in a declining interest rate market, an Underlying Fund may, to the extent it holds such fixed income securities, have to replace the securities with a lower yielding security, which may result in a decreased return for investors. Conversely, a high yield fixed income security’s value will decrease in a rising interest rate market, as will the value of an Underlying Fund’s assets, to the extent it holds such fixed income securities. In addition, to the extent that there is no established retail secondary market, there may be thin trading of high yield fixed income securities, and this may have an impact on the Underlying Fund’s investment adviser’s ability to accurately value such securities and on the Underlying Fund’s ability to dispose of such securities. Adverse publicity and investor perceptions, whether or not based on fundamental analysis, may decrease the values and liquidity of high yield fixed income securities, especially in a thinly traded market. New laws proposed or adopted from time to time may have an impact on the market for high yield securities.

Finally, there are risks involved in applying credit or dividend ratings as a method for evaluating high yield securities. For example, ratings evaluate the safety of principal and interest or dividend payments, not market value risk of high yield securities. Also, since rating agencies may fail to timely change the credit ratings to reflect subsequent events, an Underlying Fund may need to monitor the issuers of high yield securities in its portfolio, if any, to determine if the issuers will have sufficient cash flow and profits to meet required principal and interest payments, and to assure the security’s liquidity so an Underlying Fund can meet redemption requests.

Risk Considerations of Medium Grade Securities. *(Only a principal risk of the Dynamic Tactical Fund)* Debt obligations in the lowest investment grade (i.e., BBB or Baa), referred to as “medium grade” obligations, have speculative characteristics, and changes in economic conditions and other factors are more likely to lead to weakened capacity to make interest payments and repay principal on these obligations than is the case for higher rated securities. In the event that a security purchased by the Fund is subsequently downgraded below investment grade, the Adviser will consider such event in its determination of whether the Fund should continue to hold the security.

Special Note Regarding Market Events. Periods of unusually high financial market volatility and restrictive credit conditions, at times limited to a particular sector or geographic area, have occurred in the past and may be expected to recur in the future. Some countries, including the United States, have adopted or have signaled protectionist trade measures, relaxation of the financial industry regulations that followed the financial crisis, and/or reductions to corporate taxes. The scope of these policy changes is still developing, but the equity and debt markets may react strongly to expectations of change, which could increase volatility, particularly if a resulting policy runs counter to the market’s expectations. The outcome of such changes cannot be foreseen at the present time. In addition, geopolitical and other risks, including environmental and public health risks, war, natural disasters, terrorism, conflicts, and social unrest may add to instability in the world economy and markets generally. As a result of increasingly interconnected global economies and financial markets, the value and liquidity of a Fund’s or an Underlying Fund’s investments may be negatively affected by events impacting a country or region, regardless of whether a Fund or an Underlying Fund invests in issuers located in or with significant exposure to such country or region.

Recent events are impacting the securities markets. An outbreak of respiratory disease caused by a novel coronavirus was first detected in December 2019 and has spread internationally. Governmental authorities and regulators throughout the world, such as the U.S. Federal Reserve, have in the past responded to major economic disruptions with changes to fiscal and monetary policy, including but not limited to, direct capital infusions, new monetary programs, and dramatically lower interest rates. Such policy changes may adversely affect the value, volatility and liquidity of dividend and interest paying securities.

In certain cases, an exchange or market may close or issue trading halts on either specific securities or even the entire market, which may result in a Fund or an Underlying Fund being, among other things, unable to buy or sell certain securities or financial instruments or to accurately price its investments. Although multiple asset classes may be affected by a market disruption, the duration and effects may not be the same for all types of assets. To the extent a Fund or an Underlying Fund may overweight its investments in certain countries, companies, industries or market sectors, such position will increase a Fund’s or an Underlying Fund’s exposure to risk of loss from adverse developments affecting those countries, companies, industries or sectors. These conditions could result in a Fund’s inability to achieve its investment objectives, cause the postponement of reconstitution or rebalance dates for benchmark indices, adversely affect the prices and liquidity of the securities and other instruments in which a Fund or an Underlying Fund invests, negatively impact a Fund’s or an Underlying Fund’s performance, and cause losses on your investment in a Fund.

U.S. Government Securities. *(Only a principal risk of the Dynamic Tactical Fund)* A Fund or an Underlying Fund may invest in U.S. government securities. Securities issued or guaranteed by the U.S. government or its agencies or instrumentalities include U.S. Treasury securities, which are backed by the full faith and credit of the U.S. Treasury and which differ only in their interest rates, maturities, and times of issuance. U.S. Treasury bills have initial maturities of one-year or less; U.S. Treasury notes have initial maturities of one to ten years; and U.S. Treasury bonds generally have initial maturities of greater than ten years. Certain U.S. government securities are issued or guaranteed by agencies or instrumentalities of the U.S. government including, but not limited to, obligations of U.S. government agencies or instrumentalities such as Federal National Mortgage Association (“Fannie Mae”), Federal Home Loan Mortgage Corporation (“Freddie Mac”), Government National Mortgage Association (“Ginnie Mae”), the Small Business Administration, the Federal Farm Credit Administration, the Federal Home Loan Banks, Banks for Cooperatives (including the Central Bank for Cooperatives), the Federal Land Banks, the Federal Intermediate Credit Banks, the Tennessee Valley Authority, the Export-Import Bank of the United States, the Commodity Credit Corporation, the Federal Financing Bank, the Student Loan Marketing Association, the National Credit Union Administration and the Federal Agricultural Mortgage Corporation (“Farmer Mac”).

Some obligations issued or guaranteed by U.S. government agencies and instrumentalities, including, for example, Ginnie Mae pass-through certificates, are supported by the full faith and credit of the U.S. Treasury. Other obligations issued by or guaranteed by federal agencies, such as those securities issued by Fannie Mae, are supported by the discretionary authority of the U.S. government to purchase certain obligations of the federal agency, while other obligations issued by or guaranteed by federal agencies, such as those of the Federal Home Loan Banks, are supported by the right of the issuer to borrow from the U.S. Treasury, while the U.S. government provides financial support to such U.S. government-sponsored federal agencies, no assurance can be given that the U.S. government will always do so, since the U.S. government is not so obligated by law. U.S. Treasury notes and bonds typically pay coupon interest semi-annually and repay the principal at maturity.

Fannie Mae and Freddie Mac have been operating under conservatorship, with the Federal Housing Finance Administration (“FHFA”) acting as their conservator, since September 2008. The entities are dependent upon the continue support of the U.S. Department of the Treasury and FHFA in order to continue their business operations. These factors, among others, could affect the future status and role of Fannie Mae and Freddie Mac and the values of their securities and the securities which they guarantee.

There is risk that the U.S. government will not provide financial support to its agencies, authorities, instrumentalities or sponsored enterprises. A Fund or an Underlying Fund may purchase U.S. government securities that are not backed by the full faith and credit of the United States, such as those issued by Fannie Mae and Freddie Mac. The maximum potential liability of the issuers of some U.S. government securities held by a Fund or an Underlying Fund may greatly exceed their current resources, including their legal right to support from the U.S. Treasury. It is possible that these issuers will not have the funds to meet their payment obligations in the future.

- **U.S. Treasury Obligations.** U.S. Treasury obligations consist of bills, notes and bonds issued by the U.S. Treasury and separately traded interest and principal component parts of such obligations that are transferable through the federal book-entry system known as Separately Traded Registered Interest and Principal Securities (“STRIPS”) and Treasury Receipts (“TRs”).
- **Receipts.** Interests in separately traded interest and principal component parts of U.S. government obligations that are issued by banks or brokerage firms and are created by depositing U.S. government obligations into a special account at a custodian bank. The custodian bank holds the interest and principal payments for the benefit of the registered owners of the certificates or receipts. The custodian bank arranges for the issuance of the certificates or receipts evidencing ownership and maintains the register. TRs and STRIPS are interests in accounts sponsored by the U.S. Treasury. Receipts are sold as zero coupon securities.
- **U.S. Government Zero Coupon Securities.** STRIPS and receipts are sold as zero coupon securities, that is, fixed income securities that have been stripped of their unmatured interest coupons. Zero coupon securities are sold at a (usually substantial) discount and redeemed at face value at their maturity date without interim cash payments of interest or principal. The amount of this discount is accreted over the life of the security, and the accretion constitutes the income earned on the security for both accounting and tax purposes. Because of these features, the market prices of zero coupon securities are generally more volatile than the market prices of securities that have similar maturity but that pay interest periodically. Zero coupon securities are likely to respond to a greater degree to interest rate changes than are non-zero coupon securities with similar maturity and credit qualities.
- **U.S. Government Agencies.** Some obligations issued or guaranteed by agencies of the U.S. government are supported by the full faith and credit of the U.S. Treasury, others are supported by the right of the issuer to borrow from the Treasury, while still others are supported only by the credit of the instrumentality. Guarantees of principal by agencies or instrumentalities of the U.S. government may be a guarantee of payment at the maturity of the obligation so that in the event of a default prior to maturity there might not be a market and thus no means of realizing on the obligation prior to maturity. Guarantees as to the timely payment of principal and interest do not extend to the value or yield of these securities nor to the value of a Fund’s or an Underlying Fund’s shares.
- **Inflation-Protected Securities.** A Fund or an Underlying Fund may invest in inflation-protected securities issued by the U.S. Treasury, known as “TIPS” or “Treasury Inflation-Protected Securities,” which are debt securities whose principal and interest payments are adjusted for inflation and interest is paid on the adjusted amount. The inflation adjustment, which is typically applied monthly to the principal of the bond, follows a designated inflation index, such as the consumer price index. A fixed coupon rate is applied to the inflation-adjusted principal so that as inflation rises, both the principal value and the interest payments increase. This can provide investors with a hedge against inflation, as it helps preserve the purchasing power of the investment. Inflation-protected securities normally will decline in price when real interest rates rise. (A real interest rate is calculated by subtracting the inflation rate from a nominal interest rate. For example, if a 10-year Treasury note is yielding 5% and inflation is 2%, the real interest rate is 3%.) If inflation is negative, the principal and income of an inflation-protected security will decline and could result in losses for a Fund or an Underlying Fund.

Any increase in principal for an inflation-protected security resulting from inflation adjustments is considered by Internal Revenue Service regulations to be taxable income in the year it occurs. For direct holders of an inflation-protected security, this means that taxes must be paid on principal adjustments even though these amounts are not received until the bond matures. By contrast, an Underlying Fund holding these securities distributes both interest income and the income attributable to principal adjustments in the form of cash or reinvested shares, which are taxable to shareholders.

Non-Principal Investment Policies and Risks

Borrowing. Each Fund may borrow money from a bank equal to 5% of its total assets for temporary purposes to meet redemptions or to pay dividends. Borrowing may exaggerate changes in the NAV of a Fund's shares and in the return on a Fund's portfolio. Although the principal of any borrowing will be fixed, a Fund's assets may change in value during the time the borrowing is outstanding. A Fund may be required to liquidate portfolio securities at a time when it would be disadvantageous to do so in order to make payments with respect to any borrowing. A Fund may be required to earmark or segregate liquid assets in an amount sufficient to meet its obligations in connection with such borrowings. In an interest rate arbitrage transaction, a Fund borrows money at one interest rate and lends the proceeds at another, higher interest rate. These transactions involve a number of risks, including the risks that the borrower will fail or otherwise become insolvent or that there will be a significant change in prevailing interest rates.

Commercial Paper. Commercial paper is the term used to designate unsecured short-term promissory notes issued by corporations and other entities. Maturities on these issues vary from a few to 270 days.

Corporate Obligations. A Fund or an Underlying Fund may invest in debt obligations, such as bonds and debentures, issued by corporations and other business organizations without limit on credit quality or maturity. See Appendix "A" to this SAI for a description of corporate debt ratings. An issuer of debt obligations may default on its obligation to pay interest and repay principal. Also, changes in the financial strength of an issuer or changes in the credit rating of a security may affect its value.

Forward Commitment and When-Issued Transactions. A Fund or an Underlying Fund may purchase or sell securities on a when-issued or forward commitment basis (subject to its investment policies and restrictions). These transactions involve a commitment by a Fund to purchase or sell securities at a future date (ordinarily one or two months later). The price of the underlying securities (usually expressed in terms of yield) and the date when the securities will be delivered and paid for (the settlement date) are fixed at the time the transaction is negotiated. When-issued purchases and forward commitments are negotiated directly with the other party, and such commitments are not traded on exchanges.

When-issued purchases and forward commitments enable a Fund or an Underlying Fund to lock in what is believed by its investment adviser to be an attractive price or yield on a particular security for a period of time, regardless of future changes in interest rates. For instance, in periods of rising interest rates and falling prices, a Fund or an Underlying Fund might sell securities it owns on a forward commitment basis to limit its exposure to falling prices. In periods of falling interest rates and rising prices, a Fund or an Underlying Fund might sell securities it owns and purchase the same or a similar security on a when-issued or forward commitment basis, thereby obtaining the benefit of currently higher yields. When-issued securities or forward commitments involve a risk of loss if the value of the security to be purchased declines prior to the settlement date.

The value of securities purchased on a when-issued or forward commitment basis and any subsequent fluctuations in their value are reflected in the computation of a Fund's or an Underlying Fund's NAV starting on the date of the agreement to purchase the securities, and the Fund or Underlying Fund is subject to the rights and risks of ownership of the securities on that date. A Fund or an Underlying Fund may not earn interest on the securities it has committed to purchase until they are paid for and delivered on the settlement date. When a Fund or an Underlying Fund makes a forward commitment to sell securities it owns, the proceeds to be received upon settlement are included in the Fund's assets. Fluctuations in the market value of the underlying securities are not reflected in the Fund's or an Underlying Fund's NAV as long as the commitment to sell remains in effect. Settlement of when-issued purchases and forward commitment transactions generally takes place within two months after the date of the transaction, but a Fund or an Underlying Fund may agree to a longer settlement period.

A Fund or an Underlying Fund may dispose of or renegotiate a commitment after it is entered into. A Fund or an Underlying Fund also may sell securities it has committed to purchase before those securities are delivered to the Fund or Underlying Fund on the settlement date. The Fund or Underlying Fund may realize a capital gain or loss in connection with these transactions, and its distributions from any net realized capital gains will be taxable to shareholders.

Equity Swaps. To the extent consistent with its investment objective and strategies, a Fund may enter into equity swap contracts to invest in a market without owning or taking physical custody of securities in circumstances in which direct investment is restricted for legal reasons or is otherwise impracticable. Equity swaps may be used by a Fund for hedging purposes, in anticipation of the purchase of securities, for liquidity management purposes, or to seek to increase total return. The counterparty to an equity swap contract will typically be a bank, investment banking firm or broker/dealer. Equity swap contracts may be structured in different ways. For example, a counterparty may agree to pay a Fund the amount, if any, by which the notional amount of the equity swap contract would have increased in value had it been invested in particular stocks (or an index of stocks), plus the dividends that would have been received on those stocks. In these cases, a Fund may agree to pay to the counterparty the amount, if any, by which that notional amount would have decreased in value had it been invested in the stocks. Therefore, the return to the Fund on any equity swap contract should be the gain or loss on the notional amount plus dividends on the stocks less the interest paid by the Fund on the notional amount. In other cases, the counterparty and a Fund may each agree to pay the other the difference between the relative investment performances that would have been achieved if the notional amount of the equity swap contract had been invested in different stocks (or indices of stocks).

A Fund will enter into equity swaps only on a net basis, which means that the two payment streams are netted out, with the Fund receiving or paying, as the case may be, only the net amount of the two payments. Payments may be made at the conclusion of an equity swap contract or periodically during its term. Equity swaps do not involve the delivery of securities or other underlying assets. Accordingly, the risk of loss with respect to equity swaps is limited to the net amount of payments that a Fund is contractually obligated to make. If the other party to an equity swap defaults, a Fund's risk of loss consists of the net amount of payments that such Fund is contractually entitled to receive, if any.

On October 28, 2020, the SEC adopted Rule 18f-4 under the 1940 Act relating to a registered investment company's use of derivatives and related instruments. Rule 18f-4 prescribes specific value-at-risk leverage limits for certain derivatives users and requires certain derivatives users to adopt and implement a derivatives risk management program (including the appointment of a derivatives risk manager and the implementation of certain testing requirements), and prescribes reporting requirements in respect of derivatives. Subject to certain conditions, if a fund qualifies as a "limited derivatives user," as defined in Rule 18f-4, it is not subject to the full requirements of Rule 18f-4. In connection with the adoption of Rule 18f-4, the SEC rescinded certain of its prior guidance regarding asset segregation and coverage requirements in respect of derivatives transactions and related instruments. With respect to reverse repurchase agreements or other similar financing transactions in particular, Rule 18f-4 permits a fund to enter into such transactions if the fund either (i) complies with the asset coverage requirements of Section 18 of the 1940 Act, and combines the aggregate amount of indebtedness associated with all tender option bonds or similar financing with the aggregate amount of any other senior securities representing indebtedness when calculating the relevant asset coverage ratio, or (ii) treats all tender option bonds or similar financing transactions as derivatives transactions for all purposes under Rule 18f-4. The Funds have adopted procedures for investing in derivatives and other transactions in compliance with Rule 18f-4. Rule 18f-4 under the 1940 Act may require the Funds to observe more stringent asset coverage and related requirements than were previously imposed by the 1940 Act, which could adversely affect the value or performance of the Funds. Limits or restrictions applicable to the counterparties or issuers, as applicable, with which the Funds may engage in derivative transactions could also limit or prevent the Funds from using certain instruments.

The Funds will not enter into any swap transactions unless the unsecured commercial paper, senior debt or claims-paying ability of the other party is rated either A, or A-1 or better by S&P® Global Ratings Services ("S&P"), or Fitch Ratings ("Fitch"); or A or Prime-1 or better by Moody's Investors Service, Inc. ("Moody's"), or has received a comparable rating from another organization that is recognized as a nationally recognized statistical rating organization ("NRSRO"). If there is a default by the other party to such a transaction, a Fund will have contractual remedies pursuant to the agreements related to the transaction.

The use of equity swaps is a highly specialized activity, which involves investment techniques and risks different from those associated with ordinary portfolio securities transactions. If the Investment Adviser is incorrect in its forecasts of market values, the investment performance of a Fund would be less favorable than it would have been if this investment technique were not used.

Futures and Options on Futures. Futures contracts provide for the future sale by one party and purchase by another party of a specified amount of a specific security at a specified future time and at a specified price. An option on a futures contract gives the purchaser the right, in exchange for a premium, to assume a position in a futures contract at a specified exercise price during the term of the option. A Fund or an Underlying Fund may reduce the risk that it will be unable to close out a futures contract by only entering into futures contracts that are traded on a national futures exchange regulated by the Commodities Futures Trading Commission ("CFTC"). The Funds or Underlying Funds may use futures contracts and related options for: bona fide hedging; attempting to offset changes in the value of securities held or expected to be acquired or be disposed of; attempting to minimize fluctuations in foreign currencies; attempting to gain exposure to a particular market, index or instrument; or other risk management purposes. To the extent futures and/or options on futures are employed by a Fund, the Fund will limit such investments in commodity futures, commodity options contracts and swaps to below the de minimis thresholds adopted by the CFTC in its recent amendments to Rule 4.5 (see below for a description of these thresholds). For this reason, the Adviser is not required to register as a "commodity pool operator" ("CPO") under the Commodity Exchange Act at this time.

With respect to investments in swap transactions, commodity futures, commodity options or certain other derivatives used for purposes other than *bona fide* hedging purposes, an investment company must meet one of the following tests under the amended regulations in order to claim an exemption from being considered a "commodity pool" or a CPO. First, the aggregate initial margin and premiums required to establish an investment company's positions in such investments may not exceed five percent (5%) of the liquidation value of the investment company's portfolio (after accounting for unrealized profits and unrealized losses on any such investments). Alternatively, the aggregate net notional value of such instruments, determined at the time of the most recent position established, may not exceed one hundred percent (100%) of the liquidation value of the investment company's portfolio (after accounting for unrealized profits and unrealized losses on any such positions). In addition to meeting one of the foregoing trading limitations, the investment company may not market itself as a commodity pool or otherwise as a vehicle for trading in the commodity futures, commodity options or swaps and derivatives markets. In the event that the Adviser was required to register as a CPO with respect to a Fund, or an investment adviser was required to register as a CPO with respect to an Underlying Fund, the disclosure and operations of the Fund or Underlying Fund would need to comply with all applicable CFTC regulations.

An index futures contract is a bilateral agreement pursuant to which two parties agree to take or make delivery of an amount of cash equal to a specified dollar amount times the difference between the index value at the close of trading of the contract and the price at which the futures contract is originally struck. No physical delivery of the securities comprising the index is made; generally, contracts are closed out prior to the expiration date of the contract.

The Fund is required to comply with Rule 18f-4 under the 1940 Act. See the section entitled "Equity Swaps" above for additional information.

There are significant risks associated with a Fund's or an Underlying Fund's use of futures contracts and related options, including the following: (1) the success of a hedging strategy may depend on the Adviser's or an Underlying Fund's investment adviser's ability to predict movements in the prices of individual securities, fluctuations in markets and movements in interest rates; (2) there may be an imperfect or no correlation between the changes in market value of the securities held by the Fund or Underlying Fund and the prices of futures and options on futures; (3) there may not be a liquid secondary market for a futures contract or option; (4) trading restrictions or limitations may be imposed by an exchange; and (5) government regulations may restrict trading in futures contracts and options on futures. In addition, some strategies reduce a Fund's or an Underlying Fund's exposure to price fluctuations, while others tend to increase its market exposure.

Illiquid Investments. Pursuant to Rule 22e-4 under the 1940 Act, each Fund may invest up to 15% of its net assets in illiquid investments. An illiquid investment as defined in Rule 22e-4 is an investment that a Fund reasonably expects cannot be sold or disposed of in current market conditions within 7 calendar days or less without the sale or disposition significantly changing the market value of the investment. These investments may include restricted securities and repurchase agreements maturing in more than 7 days. Restricted securities are securities that may not be sold to the public without an effective registration statement under the Securities Act of 1933, as amended (the “1933 Act”), and thus may be sold only in privately negotiated transactions or pursuant to an exemption from registration. Subject to the adoption of guidelines by the Board, certain restricted securities that may be sold to institutional investors pursuant to Rule 144A under the 1933 Act and non-exempt commercial paper may be determined to be liquid by the Adviser. Illiquid investments involve the risk that the investments will not be able to be sold at the time the Adviser desires or at prices approximating the value at which a Fund is carrying the investments. To the extent an investment held by a Fund is deemed to be an illiquid investment or a less liquid investment, the Fund will be exposed to greater liquidity risk.

The Company has implemented a liquidity risk management program and related procedures to identify illiquid investments pursuant to Rule 22e-4. If the limitation on illiquid investments is exceeded, other than by a change in market values, the condition will be reported to the Board and, when required, to the SEC.

Initial Public Offerings. To the extent consistent with its investment policies and limitations, a Fund or an Underlying Fund may purchase stock in an initial public offering (“IPO”). An IPO is a company’s first offering of stock to the public. Risks associated with IPOs may include considerable fluctuation in the market value of IPO shares due to certain factors, such as the absence of a prior public market, unseasoned trading, a limited number of shares available for trading, lack of information about the issuer and limited operating history. The purchase of IPO shares may involve high transaction costs. When a Fund’s or an Underlying Fund’s asset base is small, a significant portion of the Fund’s or Underlying Fund’s performance could be attributable to investments in IPOs, because such investments would have a magnified impact on the underlying investment company. As a Fund’s or an Underlying Fund’s assets grow, the effect of the Fund’s or Underlying Fund’s investments in IPOs on the Fund’s or Underlying Fund’s performance probably will decline, which could reduce the Fund’s or Underlying Fund’s performance. Because of the price volatility of IPO shares, a Fund or an Underlying Fund may choose to hold IPO shares for a very short period of time. This may increase the turnover of a Fund’s or an Underlying Fund’s portfolio and may lead to increased expenses to the Fund or an Underlying Fund, such as commissions and transaction costs. In addition, a Fund or an Underlying Fund cannot guarantee continued access to IPOs.

Large Shareholder Purchase and Redemption Risk. Each Fund may experience adverse effects when certain large shareholders purchase or redeem large amounts of shares of the Fund. Such large shareholder redemptions may cause a Fund to sell its securities at times when it would not otherwise do so, which may negatively impact the Fund’s NAV and liquidity. Similarly, large share purchases may adversely affect the Fund’s performance to the extent that the Fund is delayed in investing new cash and is required to maintain a larger cash position than it ordinarily would. In addition, a large redemption could result in the Fund’s current expenses being allocated over a smaller asset base, leading to an increase in the Fund’s expense ratio. However, this risk may be limited to the extent that the Adviser and a Fund have entered into a fee waiver and/or expense reimbursement arrangement.

LIBOR Risk. Many financial instruments may be tied to the London Interbank Offered Rate, or “LIBOR,” to determine payment obligations, financing terms, hedging strategies, or investment value. LIBOR is the offered rate for short-term Eurodollar deposits between major international banks. As of December 31, 2021, all non-U.S. dollar LIBOR publications have been phased out and a majority of U.S. dollar LIBOR settings will cease publication after June 30, 2023. It is possible that a subset of LIBOR settings will be published after these dates on a “synthetic” basis, but any such publications would be considered non-representative of the underlying market. The U.S. Federal Reserve, based on the recommendations of the New York Federal Reserve’s Alternative Reference Rate Committee (comprised of major derivative market participants and their regulators), has begun publishing SOFR that is intended to replace U.S. dollar LIBOR. Proposals for alternative reference rates for other currencies have also been announced or have already begun publication. Markets are slowly developing in response to these new reference rates. Uncertainty related to the liquidity impact of the change in rates, and how to appropriately adjust these rates at the time of transition, poses risks for the Funds. The effect of any changes to, or discontinuation of, LIBOR on the Funds will depend on, among other things, (1) existing fallback or termination provisions in individual contracts and (2) whether, how, and when industry participants develop and adopt new reference rates and fallbacks for both legacy and new instruments and contracts. The expected discontinuation of LIBOR could have a significant impact on the financial markets in general and may also present heightened risk to market participants, including public companies, investment advisers, investment companies, and broker-dealers. The risks associated with this discontinuation and transition will be exacerbated if the work necessary to effect an orderly transition to an alternative reference rate is not completed in a timely manner. For example, current information technology systems may be unable to accommodate new instruments and rates with features that differ from LIBOR. Accordingly, it is difficult to predict the full impact of the transition away from LIBOR on the Funds until new reference rates and fallbacks for both legacy and new instruments and contracts are commercially accepted and market practices become settled.

Money Market Securities. During unusual economic or market conditions, or for temporary defensive or liquidity purposes, each Fund may invest up to 100% of its assets in money market instruments (the types of which are discussed below) that would not ordinarily be consistent with the Fund’s objective. For purposes of these policies, money market securities include (i) short-term U.S. government securities, including custodial receipts evidencing separately traded interest and principal components of securities issued by the U.S. Treasury; (ii) commercial paper rated in the highest short-term rating category by a nationally recognized statistical ratings organization (“NRSRO”), such as S&P Global Ratings (“S&P”) or Moody’s Investors Service (“Moody’s”), or determined by the Adviser to be of comparable quality at the time of purchase; (iii) short-term bank obligations (certificates of deposit, time deposits and bankers’ acceptances) of U.S. domestic banks, foreign banks and foreign branches of domestic banks, and commercial banks with assets of at least \$1 billion as of the end of their most recent fiscal year; and (iv) repurchase agreements involving such securities. Each of these types of money market securities is discussed in more detail below. For a description of ratings, see Appendix A to this SAI.

Obligations of Domestic Banks, Foreign Banks and Foreign Branches of U.S. Banks. A Fund or an Underlying Fund may invest in obligations issued by banks and other savings institutions. Investments in bank obligations include obligations of domestic branches of foreign banks and foreign branches of domestic banks. Such investments in domestic branches of foreign banks and foreign branches of domestic banks may involve risks that are different from investments in securities of domestic branches of U.S. banks. These risks may include future unfavorable political and economic developments, possible withholding taxes on interest income, seizure or nationalization of foreign deposits, currency controls, interest limitations, or other governmental restrictions which might affect the payment of principal or interest on the securities held by a Fund or an Underlying Fund. Additionally, these institutions may be subject to less stringent reserve requirements and to different accounting, auditing, reporting and recordkeeping requirements than those applicable to domestic branches of U.S. banks. In addition, investments in bank loans may not be deemed to be securities and may not have the protections of the federal securities laws. Bank obligations include the following:

- **Bankers' Acceptances.** Bankers' acceptances are bills of exchange or time drafts drawn on and accepted by a commercial bank. Corporations use bankers' acceptances to finance the shipment and storage of goods and to furnish dollar exchange. Maturities are generally six months or less.
- **Certificates of Deposit.** Certificates of deposit are interest-bearing instruments with a specific maturity. They are issued by banks and savings and loan institutions in exchange for the deposit of funds and normally can be traded in the secondary market prior to maturity. Certificates of deposit with penalties for early withdrawal will be considered illiquid.
- **Time Deposits.** Time deposits are non-negotiable receipts issued by a bank in exchange for the deposit of funds. Like a certificate of deposit, it earns a specified rate of interest over a definite period of time; however, it cannot be traded in the secondary market. Time deposits with a withdrawal penalty or that mature in more than seven days are considered to be illiquid securities.

Options. Each Fund may purchase and write put and call options on securities and securities indices and enter into related closing transactions. A put option on a security gives the purchaser of the option the right to sell, and the writer of the option the obligation to buy, the underlying security at any time during the option period. A call option on a security gives the purchaser of the option the right to buy, and the writer of the option the obligation to sell, the underlying security at any time during the option period. The premium paid to the writer is the consideration for undertaking the obligations under the option contract.

Put and call options on securities indices are similar to options on securities except that options on an index give the holder the right to receive, upon exercise of the option, an amount of cash if the closing level of the underlying index is greater than (or less than, in the case of puts) the exercise price of the option. This amount of cash is equal to the difference between the closing price of the index and the exercise price of the option, expressed in dollars multiplied by a specified number. Thus, unlike options on individual securities, all settlements are in cash, and gain or loss depends on price movements in the particular market represented by the index generally, rather than the price movements in individual securities.

The Funds are required to comply with Rule 18f-4 under the 1940 Act. See the section entitled "Futures and Options on Futures" above for additional information.

A Fund may trade put and call options on securities and securities indices, as the Adviser determines is appropriate in seeking the Fund's investment objective, and except as restricted by the Fund's investment limitations. See "Investment Limitations."

The initial purchase (sale) of an option contract is an "opening transaction." In order to close out an option position, a Fund may enter into a "closing transaction," which is simply the sale (purchase) of an option contract on the same security with the same exercise price and expiration date as the option contract originally opened. If a Fund is unable to effect a closing purchase transaction with respect to an option it has written, it will not be able to sell the underlying security until the option expires or the Fund delivers the security upon exercise.

A Fund may purchase put and call options on securities to protect against a decline in the market value of the securities in its portfolio or to anticipate an increase in the market value of securities that the Fund may seek to purchase in the future. A Fund purchasing put and call options pays a premium therefor. If price movements in the underlying securities are such that exercise of the options would not be profitable for a Fund, loss of the premium paid may be offset by an increase in the value of the Fund's securities or by a decrease in the cost of acquisition of securities by the Fund.

A Fund may write covered call options on securities as a means of increasing the yield on its assets and as a means of providing limited protection against decreases in its market value. When a Fund writes an option, if the underlying securities do not increase or decrease to a price level that would make the exercise of the option profitable to the holder thereof, the option generally will expire without being exercised and the Fund will realize as profit the premium received for such option. When a call option of which a Fund is the writer is exercised, the Fund will be required to sell the underlying securities to the option holder at the strike price, and will not participate in any increase in the price of such securities above the strike price. When a put option of which a Fund is the writer is exercised, the Fund will be required to purchase the underlying securities at a price in excess of the market value of such securities.

A Fund may purchase and write options on an exchange or over-the-counter. Over-the-counter options ("OTC options") differ from exchange-traded options in several respects. They are transacted directly with dealers and not with a clearing corporation, and therefore entail the risk of non-performance by the dealer. OTC options are available for a greater variety of securities and for a wider range of expiration dates and exercise prices than are available for exchange-traded options. Because OTC options are not traded on an exchange, pricing is done normally by reference to information from a market maker. It is the SEC's position that OTC options are generally illiquid.

The market value of an option generally reflects the market price of an underlying security. Other principal factors affecting market value include supply and demand, interest rates, the pricing volatility of the underlying security and the time remaining until the expiration date.

Risks associated with options transactions include: (1) the success of a hedging strategy may depend on an ability to predict movements in the prices of individual securities, fluctuations in markets and movements in interest rates; (2) there may be an imperfect correlation between the movement in prices of options and the securities underlying them; (3) there may not be a liquid secondary market for options; and (4) while a Fund will receive a premium when it writes covered call options, it may not participate fully in a rise in the market value of the underlying security.

Pandemic Risk. Disease outbreaks that affect local economies or the global economy may materially and adversely impact the Funds and/or the Adviser's or the Sub-Adviser's business. For example, uncertainties regarding the novel Coronavirus ("COVID-19") outbreak have resulted in serious economic disruptions across the globe. These types of outbreaks can be expected to cause severe decreases in core business activities such as manufacturing, purchasing, tourism, business conferences and workplace participation, among others. These disruptions lead to instability in the market place, including stock market losses and overall volatility, as has occurred in connection with COVID-19. In the face of such instability, governments may take extreme and unpredictable measures to combat the spread of disease and mitigate the resulting market disruptions and losses. The Adviser and Sub-Adviser have in place business continuity plans reasonably designed to ensure that it maintains normal business operations, and it periodically tests those plans. However, in the event of a pandemic or an outbreak, there can be no assurance that the Adviser, Sub-Adviser, the Funds' or the Underlying Funds' service providers will be able to maintain normal business operations for an extended period of time or will not lose the services of key personnel on a temporary or long-term basis due to illness or other reasons. Although vaccines for COVID-19 are available, the full impacts of a pandemic or disease outbreaks are unknown and the pace of recovery may vary from market to market, resulting in a high degree of uncertainty for potentially extended periods of time.

Repurchase Agreements. Each Fund may enter into repurchase agreements with financial institutions. A repurchase agreement is an agreement under which a Fund acquires a fixed income security (generally a security issued by the U.S. government or an agency thereof, a banker's acceptance, or a certificate of deposit) from a commercial bank, broker, or dealer, and simultaneously agrees to resell such security to the seller at an agreed upon price and date (normally, the next business day). Because the security purchased constitutes collateral for the repurchase obligation, a repurchase agreement may be considered a loan that is collateralized by the security purchased. The acquisition of a repurchase agreement may be deemed to be an acquisition of the underlying securities as long as the obligation of the seller to repurchase the securities is collateralized fully. The Funds follow certain procedures designed to minimize the risks inherent in such agreements. These procedures include effecting repurchase transactions only with creditworthy financial institutions whose condition will be continually monitored by the Adviser. The repurchase agreements entered into by a Fund will provide that the underlying collateral at all times shall have a value at least equal to 102% of the resale price stated in the agreement and consist only of securities permissible under Section 101(47)(A)(i) of the Bankruptcy Code (the Adviser monitors compliance with this requirement). Under all repurchase agreements entered into by a Fund, the custodian or its agent must take possession of the underlying collateral. In the event of a default or bankruptcy by a selling financial institution, a Fund will seek to liquidate such collateral. However, the exercising of a Fund's right to liquidate such collateral could involve certain costs or delays and, to the extent that proceeds from any sale upon a default of the obligation to repurchase were less than the repurchase price, the Fund could suffer a loss. It is the current policy of the Funds, not to invest in repurchase agreements that do not mature within seven days if any such investment, together with any other illiquid assets held by that Fund, amounts to more than 15% of the Fund's total assets. The investments of a Fund in repurchase agreements, at times, may be substantial when, in the view of the Adviser, liquidity or other considerations so warrant.

Restricted Securities. Each Fund may purchase securities which are not registered under the 1933 Act but which may be sold to "qualified institutional buyers" in accordance with Rule 144A under the 1933 Act ("Restricted Securities"). These securities will not be considered illiquid so long as it is determined by the Adviser that an adequate trading market exists for the securities. This investment practice could have the effect of increasing the level of illiquidity in an underlying investment company during any period that qualified institutional buyers become uninterested in purchasing restricted securities. In reaching liquidity decisions, the Adviser may consider, among others, the following factors: (1) the unregistered nature of the security; (2) the frequency of trades and quotes for the security; (3) the number of dealers wishing to purchase or sell the security and the number of other potential purchasers; (4) dealer undertakings to make a market in the security; and (5) the nature of the security and the nature of the marketplace trades (e.g., the time needed to dispose of the security, the method of soliciting offers and the mechanics of the transfer).

The purchase price and subsequent valuation of Restricted Securities normally reflect a discount from the price at which such securities trade when they are not restricted, since the restriction makes them less liquid. The amount of the discount from the prevailing market price is expected to vary depending upon the type of security, the character of the issuer, the party who will bear the expenses of registering the Restricted Securities and prevailing supply and demand conditions.

As consistent with each Fund's respective investment objective, the Funds may also invest in Section 4(2) commercial paper. Section 4(2) commercial paper is issued in reliance on an exemption from registration under Section 4(2) of the 1933 Act and is generally sold to institutional investors who purchase for investment. Any resale of such commercial paper must be in an exempt transaction, usually to an institutional investor through the issuer or investment dealers who make a market in such commercial paper. The Company believes that Section 4(2) commercial paper is liquid to the extent it meets the criteria established by the Board. The Company intends to treat such commercial paper as liquid and not subject to the investment limitations applicable to illiquid securities or restricted securities.

Reverse Repurchase Agreements. Each Fund may enter into reverse repurchase agreements with respect to portfolio securities for temporary purposes (such as to obtain cash to meet redemption requests) when the liquidation of portfolio securities is deemed disadvantageous or inconvenient by the Adviser. Reverse repurchase agreements involve the sale of securities held by a Fund subject to the Fund's agreement to repurchase the securities at an agreed-upon price, date and rate of interest. Such agreements may be considered borrowings under the 1940 Act and may be entered into only for temporary or emergency purposes. Reverse repurchase agreements involve the risk that the market value of the securities sold by a Fund may decline below the price of the securities the Fund is obligated to repurchase and the interest received on the cash exchanged for the securities.

Rights Offerings and Purchase Warrants. Rights offerings and purchase warrants are privileges issued by a corporation which enable the owner to subscribe to and purchase a specified number of shares of the corporation at a specified price during a specified period of time. Subscription rights normally have a short lifespan to expiration. The purchase of rights or warrants involves the risk that a Fund could lose the purchase value of a right or warrant if the right to subscribe to additional shares is not executed prior to the right's or warrant's expiration. Also, the purchase of rights and/or warrants involves the risk that the effective price paid for the right and/or warrant added to the subscription price of the related security may exceed the value of the subscribed security's market price such as when there is no movement in the level of the underlying security.

Securities Lending. Each Fund may lend its portfolio securities to financial institutions. Such loans would involve risks of delay in receiving additional collateral in the event the value of the collateral decreases below the value of the securities loaned or of delay in recovering the securities loaned or even loss of rights in the collateral should the borrower of the securities fail financially. However, loans will be made only to borrowers which the Adviser deems to be of good standing and only when, in the Adviser's judgment, the income to be earned from the loans justifies the attendant risks. A Fund may not make loans in excess of 33¹/₃% of the value of its total assets. A Fund may pay a part of the interest earned from the investment of collateral, or other fee, to an unaffiliated or, to the extent consistent with the 1940 Act or the rules and SEC interpretations thereunder, affiliated third party for acting as a Fund's securities lending agent.

By lending its securities, a Fund may increase its income by receiving payments from the borrower that reflect the amount of any interest or any dividends payable on the loaned securities as well as by either investing cash collateral received from the borrower in short-term instruments or obtaining a fee from the borrower when U.S. government securities or letters of credit are used as collateral. A Fund does not have the right to vote loaned securities. A Fund may attempt to call loaned securities back to permit the exercise of voting rights if time and jurisdictional restrictions permit. There is no guarantee that all loans can be recalled.

Special Situation Companies. A Fund or an Underlying Fund may invest in "Special Situations." The term "Special Situation" shall be deemed to refer to a security of a company in which an unusual and possibly non-repetitive development is taking place which, in the opinion of the Adviser or the Underlying Fund's investment adviser, may cause the security to attain a higher market value independently, to a degree, of the trend in the securities market in general. The particular development (actual or prospective), which may qualify a security as a Special Situation, may be one of many different types.

Such developments may include, among others, a technological improvement or important discovery or acquisition which, if the expectation for it materialized, would effect a substantial change in the company's business; a reorganization; a recapitalization or other development involving a security exchange or conversion; a merger, liquidation or distribution of cash, securities or other assets; a breakup or workout of a holding company; litigation which, if resolved favorably, would improve the value of the company's stock; a new or changed management; or material changes in management policies. A Special Situation may often involve a comparatively small company, which is not well known, and which has not been closely watched by investors generally, but it may also involve a large company. The fact, if it exists, that an increase in the company's earnings, dividends or business is expected, or that a given security is considered to be undervalued, would not in itself be sufficient to qualify as a Special Situation. A Fund or an Underlying Fund may invest in securities (even if not Special Situations) which, in the opinion of its investment adviser, are appropriate investments for the Fund or Underlying Fund, including securities which the investment adviser believes are undervalued by the market. The Funds and Underlying Funds are not required to invest any minimum percentage of their aggregate portfolio in "Special Situations," nor are they required to invest any minimum percentage of their aggregate portfolio in securities other than "Special Situations."

Temporary Defensive Positions. In anticipation of or in response to adverse market, economic, political or other conditions, a Fund may take temporary defensive positions (up to 100% of its assets) in cash, cash equivalents and all types of money market and short-term debt securities. If a Fund were to take a temporary defensive position, it may be unable to achieve its investment objective for a period of time.

INVESTMENT RESTRICTIONS

The Company has adopted the following investment restrictions as fundamental policies with respect to each Fund. These restrictions cannot be changed with respect to each Fund without the approval of the holders of a majority of the Fund's outstanding voting securities. For the purposes of the 1940 Act, a "majority of outstanding shares" means the vote of the lesser of: (1) 67% or more of the voting securities of the Fund present at the meeting if the holders of more than 50% of the Fund's outstanding voting securities are present or represented by proxy; or (2) more than 50% of the outstanding voting securities of the Fund. Notwithstanding the fundamental and non-fundamental investment restrictions provided below, each Fund's investments and operations will be limited by the terms and conditions of its exemptive order.

Except with the approval of a majority of the outstanding voting securities, each Fund may not:

1. Borrow money or issue senior securities, except that the Fund may borrow from banks and enter into reverse repurchase agreements provided that there is at least 300% asset coverage for the borrowings of the Fund. The Fund may not mortgage, pledge or hypothecate any assets, except in connection with any such borrowing and then in amounts not in excess of one-third of the value of the Fund's total assets at the time of such borrowing. However, the amount shall not be in excess of lesser of the dollar amounts borrowed or 33¹/₃% of the value of the Fund's total assets at the time of such borrowing, provided that: (a) short sales and related borrowings of securities are not subject to this restriction; and (b) for the purposes of this restriction, collateral arrangements with respect to options, short sales, futures contracts, options on futures contracts, collateral arrangements with respect to initial and variation margin and collateral arrangements with respect to derivatives instruments are not deemed to be a pledge or other encumbrance of assets. Securities held in escrow or separate accounts in connection with the Fund's investment practices are not considered to be borrowings or deemed to be pledged for purposes of this limitation;
2. Act as an underwriter of securities within the meaning of the 1933 Act, except insofar as it might be deemed to be an underwriter upon disposition of certain portfolio securities acquired within the limitation on purchases of restricted securities;
3. Purchase or sell real estate (including real estate limited partnership interests), provided that a Fund may invest: (a) in securities secured by real estate or interests therein or issued by companies that invest in real estate or interests therein; or (b) in real estate investment trusts;

4. Purchase or sell commodities or commodity contracts, except as permitted by the 1940 Act, as amended, and as interpreted or modified by the regulatory authority having jurisdiction from time to time;
5. Make loans, except through loans of portfolio securities and repurchase agreements, provided that for purposes of this restriction the acquisition of bonds, debentures or other debt instruments or interests therein and investment in government obligations, loan participations and assignments, short-term commercial paper, certificates of deposit and bankers' acceptances shall not be deemed to be the making of a loan;
6. Invest 25% or more of its total assets, taken at market value at the time of each investment, in the securities of one or more issuers conducting their principal business activities in the same industry, provided that (a) there is no limitation with respect to (i) instruments issued or guaranteed by the United States, any state, territory or possession of the United States, the District of Columbia or any of their authorities, agencies, instrumentalities or political subdivisions, and (ii) repurchase agreements secured by the instruments described in clause (i); (b) wholly-owned finance companies will be considered to be in the industries of their parents if their activities are primarily related to financing the activities of the parents; and (c) utilities will be divided according to their services, for example, gas, gas transmission, electric and gas, electric and telephone will each be considered a separate industry; or
7. Purchase the securities of any one issuer, other than securities issued or guaranteed by the U.S. government or its agencies or instrumentalities, if immediately after and as a result of such purchase, more than 5% of the value of the Fund's total assets would be invested in the securities of such issuer, or more than 10% of the outstanding voting securities of such issuer would be owned by the Fund, except that up to 25% of the value of the Fund's total assets may be invested without regard to such limitations.

In addition to the fundamental investment limitations specified above, the Funds are subject to the following non-fundamental limitations, which may be changed without shareholder approval, in compliance with applicable law and regulatory policy. The Funds may not:

1. Make investments for the purpose of exercising control or management, but investments by a Fund in wholly-owned investment entities created under the laws of certain countries will not be deemed the making of investments for the purpose of exercising control or management; or
2. Purchase securities on margin, except that a Fund may use margin to the extent necessary to engage in short sales and may obtain such short-term credits as are necessary for the clearance of portfolio transactions; and provided that margin deposits in connection with options, futures contracts, options on futures contracts or other derivative instruments shall not constitute purchasing securities on margin.

Each Fund may invest in securities issued by other investment companies within the limits prescribed by the 1940 Act. As a shareholder of another investment company, a Fund would bear, along with other shareholders, its pro rata portion of the other investment company's expenses, including advisory fees. These expenses would be in addition to the advisory and other expenses that a Fund bears directly in connection with its own operations.

Securities held by a Fund generally may not be purchased from, sold or loaned to the Adviser or its affiliates or any of their directors, officers or employees, acting as principal, unless pursuant to a rule or exemptive order under the 1940 Act.

If a percentage restriction under one of the Fund's investment policies or limitations or the use of assets is adhered to at the time a transaction is effected, later changes in percentages resulting from changing values will not be considered a violation (except with respect to any restrictions that may apply to borrowings or senior securities issued by the Fund).

EXCHANGE LISTING AND TRADING

Shares are listed for trading and trade throughout the day on the Exchange.

There can be no assurance that the Fund will continue to meet the requirements of the Exchange necessary to maintain the listing of the Fund's shares. The Exchange may, but is not required to, remove the shares of a Fund from listing if, among other things (i) following the initial 12-month period beginning upon the commencement of trading of the fund, there are fewer than 50 beneficial owners of the Fund's shares; (ii) either the Portfolio Reference Basket or the holdings of the Fund's portfolio are not made available to all market participants at the same time; (iii) the Fund has failed to file any filings required by the SEC or the Exchange is aware that the Fund is not in compliance with the conditions of any exemptive order or no-action relief granted by the SEC or its staff under the 1940 Act with respect to the Fund; (iv) the Exchange's ongoing listing requirements are not continuously maintained; (iv) any of the continuous listing representations for the issue of the Fund's shares are not continuously met; or (v) such other event shall occur or condition exists that, in the opinion of the Exchange, makes further dealings on the exchange inadvisable. The Exchange will remove the Fund's shares from listing and trading upon termination of the Fund. The Exchange will remove the Fund's shares from listing and trading upon termination of the Fund.

The Company reserves the right to adjust the price levels of its shares in the future to help maintain convenient trading ranges for investors. Any adjustments would be accomplished through stock splits or reverse stock splits, which would have no effect on the net assets of the Funds.

As in the case of other stocks traded on the Exchange, broker's commissions on transactions will be based on negotiated commission rates at customary levels.

Unlike other actively managed ETFs that publish their portfolio holdings on a daily basis, each Fund does not publicly disclose the composition of its portfolio each business day, which may affect the price at which shares of the Fund trade in the secondary market. Given the differences between the Funds and ETFs that disclose their complete holdings daily, there is a risk that market prices of a Fund may vary significantly from NAV, and that a Fund's shares may trade at a wider bid/ask spread – and therefore cost investors more to trade – than shares of traditional ETFs. These risks are heightened during periods of market disruption or volatility. In addition, although each Fund seeks to benefit from keeping its portfolio information secret, market participants may attempt to use the Portfolio Reference Basket/Proxy Portfolio to identify a Fund's trading strategy. If successful, this could result in such market participants engaging in certain predatory trading practices that may have the potential to harm a Fund and its shareholders, such as front running a Fund's trades of portfolio securities.

MANAGEMENT OF THE COMPANY

The business and affairs of the Company are managed under the oversight of the Board, subject to the laws of the State of Maryland and the Company's Charter. The Directors are responsible for deciding matters of overall policy and overseeing the actions of the Company's service providers. The officers of the Company conduct and supervise the Company's daily business operations.

Directors who are not deemed to be "interested persons" of the Company (as defined in the 1940 Act) are referred to as "Independent Directors." Directors who are deemed to be "interested persons" of the Company are referred to as "Interested Directors." The Board is currently composed of seven Independent Directors and one Interested Director. The Board has selected Arnold M. Reichman, an Independent Director, to act as Chairman. Mr. Reichman's duties include presiding at meetings of the Board and interfacing with management to address significant issues that may arise between regularly scheduled Board and Committee meetings. In the performance of his duties, Mr. Reichman will consult with the other Independent Directors and the Company's officers and legal counsel, as appropriate. The Chairman may perform other functions as requested by the Board from time to time.

The Board meets as often as necessary to discharge its responsibilities. Currently, the Board conducts regular, in-person meetings at least four times a year, and holds special in-person or telephonic meetings as necessary to address specific issues that require attention prior to the next regularly scheduled meeting. The Board also relies on professionals, such as the Company's independent registered public accounting firms and legal counsel, to assist the Directors in performing their oversight responsibilities.

The Board has established seven standing committees — Audit, Contract, Executive, Nominating and Governance, Product Development, Regulatory Oversight, and Valuation Committees. The Board may establish other committees, or nominate one or more Directors to examine particular issues related to the Board's oversight responsibilities, from time to time. Each Committee meets periodically to perform its delegated oversight functions and reports its findings and recommendations to the Board. For more information on the Committees, see the section entitled "Standing Committees."

The Board has determined that the Company's leadership structure is appropriate because it allows the Board to effectively perform its oversight responsibilities.

Directors and Executive Officers

The Directors and executive officers of the Company, their ages, business addresses and principal occupations during the past five years are set forth in this section.

Name, Address, and Age	Position(s) Held with Company	Term of Office and Length of Time Served ¹	Principal Occupation(s) During Past 5 Years	Number of Portfolios in Fund Complex Overseen by Director*	Other Directorships Held by Director
INDEPENDENT DIRECTORS					
Julian A. Brodsky 615 East Michigan Street Milwaukee, WI 53202 Age: 89	Director	1988 to present	From 1969 to 2011, Director and Vice Chairman, Comcast Corporation (cable television and communications).	57	AMDOCS Limited (service provider to telecommunications companies).
Gregory P. Chandler 615 East Michigan Street Milwaukee, WI 53202 Age: 56	Director	2012 to present	Since 2020, Chief Financial Officer, Herspiegel Consulting LLC (life sciences consulting services); 2020, Chief Financial Officer, Avocado Systems Inc. (cyber security software provider); 2009-2020, Chief Financial Officer, Emtec, Inc. (information technology consulting/services).	57	Wilmington Funds (12 portfolios) (registered investment company); Emtec, Inc. (until December 2019); FS Investment Corporation (business development Company) (until December 2018).

* Each Director oversees 57 portfolios of the fund complex, consisting of the series in the Company (48 portfolios) and The RBB Fund Trust (9 portfolios).

1. Subject to the Company's Retirement Policy, each Director may continue to serve as a Director until the last day of the calendar year in which the applicable Director attains age 75 or until his or her successor is elected and qualified or his or her death, resignation or removal. The Board reserves the right to waive the requirements of the Policy with respect to an individual Director. The Board has approved waivers of the policy with respect to Messrs. Brodsky, Giordano, Sablowsky and Straniere. Each officer holds office at the pleasure of the Board until the next special meeting of the Company or until his or her successor is duly elected and qualified, or until he or she dies, resigns or is removed.
2. Mr. Sablowsky is considered an "interested person" of the Company as that term is defined in the 1940 Act and is referred to as an "Interested Director." Mr. Sablowsky is considered an "Interested Director" of the Company by virtue of his position as a senior officer of Oppenheimer & Co., Inc., a registered broker-dealer.

Director Experience, Qualifications, Attributes and/or Skills

The information above includes each Director's principal occupations during the last five years. Each Director possesses extensive additional experience, skills and attributes relevant to his or her qualifications to serve as a Director. The cumulative background of each Director led to the conclusion that each Director should serve as a Director of the Company. Mr. Brodsky has over 40 years of senior executive-level management experience in the cable television and communications industry. Mr. Chandler has demonstrated leadership and management abilities as evidenced by his senior executive level positions in the investment technology consulting/services and investment banking/brokerage industries, and also serves on various boards. Ms. Dolly has over three decades of experience in the financial services industry, and she has demonstrated her leadership and management abilities by serving in numerous senior executive-level positions. Mr. Giordano has years of experience as a consultant to financial services organizations and also serves on the boards of other registered investment companies. Mr. Reichman brings decades of investment management experience to the Board, in addition to senior executive-level management experience. Mr. Sablowsky has demonstrated leadership and management abilities as evidenced by his senior executive-level positions in the financial services industry. Mr. Shea has demonstrated leadership and management abilities as evidenced by his senior executive-level positions in the brokerage, clearing, and investment services industry, including service on the boards of industry regulatory organizations and a university. Mr. Straniere has been a practicing attorney for over 30 years and has served on the boards of an asset management company and another registered investment company.

Standing Committees

The responsibilities of each Committee of the Board and its members are described below.

Audit Committee. The Board has an Audit Committee comprised of three Independent Directors. The current members of the Audit Committee are Messrs. Brodsky, Chandler and Giordano. The Audit Committee, among other things, reviews results of the annual audit and approves the firm(s) to serve as independent auditors. The Audit Committee convened three times during the fiscal year ended August 31, 2022.

Contract Committee. The Board has a Contract Committee comprised of the Interested Director and four Independent Directors. The current members of the Contract Committee are Ms. Dolly and Messrs. Brodsky, Chandler, Sablowsky and Straniere. The Contract Committee reviews and makes recommendations to the Board regarding the approval and continuation of agreements and plans of the Company. The Contract Committee convened five times during the fiscal year ended August 31, 2022.

Executive Committee. The Board has an Executive Committee comprised of the Interested Director and three Independent Directors. The current members of the Executive Committee are Messrs. Chandler, Giordano, Reichman and Sablowsky. The Executive Committee may generally carry on and manage the business of the Company when the Board is not in session. The Executive Committee did not meet during the fiscal year ended August 31, 2022.

Nominating and Governance Committee. The Board has a Nominating and Governance Committee comprised of three Independent Directors. The current members of the Nominating and Governance Committee are Messrs. Brodsky, Giordano and Reichman. The Nominating and Governance Committee recommends to the Board all persons to be nominated as Directors of the Company. The Nominating and Governance Committee will consider nominees recommended by shareholders. Recommendations should be submitted to the Committee care of the Company's Secretary. The Nominating and Governance Committee convened two times during the fiscal year ended August 31, 2022.

Product Development Committee. The Board has a Product Development Committee comprised of the Interested Director and three Independent Directors. The current members of the Product Development Committee are Messrs. Chandler, Reichman, Sablowsky, and Shea. The Product Development Committee oversees the process regarding the addition of new investment advisers and investment products to the Company. The Product Development Committee convened five times during the fiscal year ended August 31, 2022.

Regulatory Oversight Committee. The Board has a Regulatory Oversight Committee comprised of the Interested Director and four Independent Directors. The current members of the Regulatory Oversight Committee are Ms. Dolly and Messrs. Reichman, Sablowsky, Shea and Straniere. The Regulatory Oversight Committee monitors regulatory developments in the mutual fund industry and focuses on various regulatory aspects of the operation of the Company. The Regulatory Oversight Committee convened four times during the fiscal year ended August 31, 2022.

Valuation Committee. The Board has a Valuation Committee comprised of the Interested Director and two officers of the Company. The members of the Valuation Committee are Messrs. Faia, Sablowsky and Shaw. The Valuation Committee is responsible for reviewing fair value determinations. The Valuation Committee convened four times during the fiscal year ended August 31, 2022.

Risk Oversight

The Board performs its risk oversight function for the Company through a combination of (1) direct oversight by the Board as a whole and Board committees and (2) indirect oversight through the Company's investment advisers and other service providers, Company officers and the Company's CCO. The Company is subject to a number of risks, including but not limited to investment risk, compliance risk, operational risk, reputational risk, credit risk and counterparty risk. Day-to-day risk management with respect to the Company is the responsibility of the Company's investment advisers or other service providers (depending on the nature of the risk) that carry out the Company's investment management and business affairs. Each of the investment advisers and the other service providers have their own independent interest in risk management and their policies and methods of risk management will depend on their functions and business models and may differ from the Company's and each other's in the setting of priorities, the resources available or the effectiveness of relevant controls.

The Board provides risk oversight by receiving and reviewing on a regular basis reports from the Company's investment advisers or other service providers, receiving and approving compliance policies and procedures, periodic meetings with the Company's portfolio managers to review investment policies, strategies and risks, and meeting regularly with the Company's CCO to discuss compliance reports, findings and issues. The Board also relies on the Company's investment advisers and other service providers, with respect to the day-to-day activities of the Company, to create and maintain procedures and controls to minimize risk and the likelihood of adverse effects on the Company's business and reputation.

Board oversight of risk management is also provided by various Board Committees. For example, the Audit Committee meets with the Company's independent registered public accounting firms to ensure that the Company's respective audit scopes include risk-based considerations as to the Company's financial position and operations. The Board may, at any time and in its discretion, change the manner in which it conducts risk oversight. The Board's oversight role does not make the Board a guarantor of the Company's investments or activities.

Director Ownership of Shares of the Company

The following table sets forth the dollar range of equity securities beneficially owned by each Director in the Funds and in all of the portfolios of the Company (which for each Director comprise all registered investment companies within the Company's family of investment companies overseen by him or her), as of December 31, 2022, including amounts through the deferred compensation plan. As shown below, because the Funds had not commenced operations prior to the date of this SAI, the Directors do not own any shares of the Funds.

Name of Director	Dollar Range of Equity Securities in the Funds	Aggregate Dollar Range of Equity Securities in All Registered Investment Companies Overseen by Director within the Family of Investment Companies
Independent Directors		
Julian A. Brodsky	None	Over \$100,000
Gregory P. Chandler	None	Over \$100,000
Lisa A. Dolly	None	None
Nicholas A. Giordano	None	\$10,001-\$50,000
Arnold M. Reichman	None	Over \$100,000
Brian T. Shea	None	\$10,001-\$50,000
Robert A. Straniere	None	\$10,001-\$50,000
Interested Director		
Robert Sablowsky	None	Over \$100,000

Directors' and Officers' Compensation

Effective January 1, 2023, the Company and The RBB Fund Trust, based on an allocation formula, pay each Director a retainer at the rate of \$150,000 annually, \$13,500 for each regular meeting of the Board, \$5,000 for each Regulatory Oversight Committee meeting attended in-person, \$4,000 for each other committee (excluding the Regulatory Oversight Committee) meeting attended in-person, and \$2,000 for each committee meeting attended telephonically or special meeting of the Board attended in-person or telephonically. The Chairman of the Audit Committee and Chairman of the Regulatory Oversight Committee each receives an additional fee of \$20,000 for his services. The Chairman of the Contract Committee and the Chairman of the Nominating and Governance Committee each receives an additional fee of \$10,000 per year for his services. The Vice Chairman of the Board receives an additional fee of \$35,000 per year for his services in this capacity and the Chairman of the Board receives an additional fee of \$75,000 per year for his services in this capacity.

From January 1, 2022 through December 31, 2022, the Company and The RBB Fund Trust, based on an allocation formula, paid each Director a retainer at the rate of \$125,000 annually, \$13,500 for each regular meeting of the Board, \$3,500 for each committee meeting attended in-person, and \$2,000 for each committee meeting attended telephonically or special meeting of the Board attended in-person or telephonically. The Chairman of the Audit Committee and Chairman of the Regulatory Oversight Committee each received an additional fee of \$20,000 for his services. The Chairman of the Contract Committee and the Chairman of the Nominating and Governance Committee each received an additional fee of \$10,000 per year for his services. The Vice Chairman of the Board received an additional fee of \$35,000 per year for his services in this capacity and the Chairman of the Board received an additional fee of \$75,000 per year for his services in this capacity.

Directors are reimbursed for any reasonable out-of-pocket expenses incurred in attending meetings of the Board or any committee thereof. An employee of Vigilant Compliance, LLC serves as CCO of the Company and served as President of the Company until August 2022. Vigilant Compliance, LLC is compensated for the services provided to the Company and The RBB Fund Trust, and such compensation is determined by the Board. For the fiscal year ended August 31, 2022, Vigilant Compliance LLC received \$758,511 in the aggregate from all series of the Company for services provided. For the fiscal year ended August 31, 2021, Vigilant Compliance did not receive any fees from the Funds because the Funds had not commenced operations prior to the date of the SAI. Employees of the Company serve as President, Chief Financial Officer, Chief Operating Officer, Secretary and Director of Marketing & Business Development, and are compensated for services provided. For the fiscal year ended August 31, 2022, each of the following members of the Board and the President, Chief Financial Officer, Chief Operating Officer, Secretary and Director of Marketing & Business Development received compensation from the Company and The RBB Fund Trust in the following amounts:

Name of Director/Officer	Aggregate Compensation from the Funds*	Pension or Retirement Benefits Accrued as Part of Funds Expenses	Total Compensation From Fund Complex Paid to Directors or Officers
Independent Directors:			
Julian A. Brodsky, Director	\$0	N/A	\$198,000
J. Richard Carnall, Director ⁽¹⁾	\$0	N/A	\$0
Gregory P. Chandler, Director	\$0	N/A	\$232,500
Lisa A. Dolly ⁽²⁾	\$0	N/A	\$182,000
Nicholas A. Giordano, Director	\$0	N/A	\$210,000
Arnold M. Reichman, Director and Chairman	\$0	N/A	\$282,000
Brian T. Shea, Director	\$0	N/A	\$182,500
Robert A. Straniere, Director	\$0	N/A	\$203,000
Interested Director:			
Robert Sablowsky, Director	\$0	N/A	\$262,000
Officers:			
Steven Plump, President ⁽³⁾	\$0	N/A	\$20,000
James G. Shaw, Treasurer and Secretary	\$0	N/A	\$315,500
Craig Urciuoli, Director of Marketing & Business Development	\$0	N/A	\$262,032

* The Funds had not commenced operations prior to the date of this SAI.

(1) Mr. Carnall retired from his role as a Director effective October 1, 2021.

(2) Ms. Dolly was appointed as a Director effective October 1, 2021.

(3) Mr. Plump was appointed President on August 4, 2022.

Each compensated Director is entitled to participate in the Company's deferred compensation plan (the "DC Plan"). Under the DC Plan, a compensated Director may elect to defer all or a portion of his or her compensation and have the deferred compensation treated as if it had been invested by the Company in shares of one or more of the portfolios of the Company. The amount paid to the Directors under the DC Plan will be determined based upon the performance of such investments.

As of December 31, 2022, the Independent Directors and their respective family members (spouse or dependent children) did not own beneficially or of record any securities of the Company's investment advisers or distributor, or of any person directly or indirectly controlling, controlled by, or under common control with the investment advisers or distributor.

Director Emeritus Program

The Board has created a position of Director Emeritus, whereby an incumbent Director who has attained at least the age of 75 and completed a minimum of fifteen years of service as a Director may, in the sole discretion of the Nominating and Governance Committee of the Company ("Committee"), be recommended to the full Board to serve as Director Emeritus.

A Director Emeritus that has been approved as such receives an annual fee in an amount equal to up to 50% of the annual base compensation paid to a Director. Compensation will be determined annually by the Committee and the Board with respect to each Director Emeritus. In addition, a Director Emeritus will be reimbursed for any expenses incurred in connection with their service, including expenses of travel and lodging incurred in attendance at Board meetings. A Director Emeritus will continue to receive relevant materials concerning the Funds and will be available to consult with the Directors at reasonable times as requested. However, a Director Emeritus does not have any voting rights at Board meetings and is not subject to election by shareholders of the Funds.

A Director Emeritus will be permitted to serve in such capacity from year to year at the pleasure of the Committee and the Board for up to three years.

J. Richard Carnall previously served as a Director Emeritus of the Company. For the fiscal year ended August 31, 2022, J. Richard Carnall received compensation for his role as a Director Emeritus in the following amounts:

Aggregate Compensation from the Funds	Pension or Retirement Benefit Accrued as Part of Fund Expenses	Total Compensation From Fund Complex
\$0	N/A	\$62,500

CODE OF ETHICS

The Company, the Adviser, and the Sub-Adviser have each adopted a code of ethics (“Code of Ethics”) pursuant to Rule 17j-1 under the 1940 Act, which governs personal securities trading by their respective personnel. Each Code of Ethics permits such individuals to purchase and sell securities, including securities that are purchased, sold, or held by the Fund, but only subject to certain conditions designed to ensure that purchases and sales by such individuals do not adversely affect the Fund’s investment activities.

PRINCIPAL HOLDERS

Any person owning, directly or indirectly, more than 25% of the outstanding shares of a Fund is presumed to control the Fund. Principal holders are persons who own 5% or more of the outstanding shares of a Fund. As of the date of this SAI, no shares of the Fund were outstanding and therefore no persons owned 5% or more of the outstanding shares of a Fund as of the date of this SAI.

Because the Funds had not commenced operations prior to the date of this SAI, the Directors and officers of the Company as a group owned none of the outstanding shares of each of the Funds.

INVESTMENT ADVISORY AGREEMENT AND INVESTMENT SUB-ADVISORY AGREEMENT

Investment Advisory Agreement

Summit Global Investments, LLC (“Summit” or the “Adviser”) is a limited liability company registered with the State of Utah in October 2010. The Adviser is 100% privately-owned and is controlled by David Harden.

The Adviser provides investment advisory services to each Fund pursuant to the terms of an Investment Advisory Agreement (the “Advisory Agreement”) between the Company and the Adviser. After the initial two year-term, the Advisory Agreement may be continued in effect from year to year with the approval of (1) the Board or (2) vote of a majority (as defined by the 1940 Act) of the outstanding voting securities of the Fund, provided that in either event the continuance must also be approved by a majority of the Independent Directors by vote cast in person at a meeting called for the purpose of voting on such approval. The Advisory Agreement terminates automatically in the event of its assignment, as defined in the 1940 Act and the rules thereunder.

Subject to the supervision of the Board, the Adviser will provide for the overall management of the Funds including (i) the provision of a continuous investment program for the Funds, including investment research and management with respect to all securities, investments, cash and cash equivalents, (ii) the determination from time to time of the securities and other investments to be purchased, retained, or sold by the Funds, and (iii) the placement from time to time of orders for all purchases and sales of securities and other investments made for the Funds. The Adviser will provide the services rendered by it in accordance with each Fund’s investment objective, restrictions and policies as stated in the Prospectus and in this SAI. The Adviser will not be liable for any error of judgment, mistake of law, or for any loss suffered by the Funds in connection with the performance of the Advisory Agreement, except a loss resulting from a breach of fiduciary duty with respect to the receipt of compensation for services or a loss resulting from willful misfeasance, bad faith or gross negligence on the part of the Adviser in the performance of its duties, or from reckless disregard of its obligations and duties under the Advisory Agreement.

Pursuant to the terms of the Advisory Agreement, in consideration of the services provided by the Adviser, each Fund pays the Adviser a unitary management fee that is computed and paid monthly at an annual rate of 0.85% and 0.95% of the average daily net assets during the month of the Large Cap Core Fund and Dynamic Tactical Fund, respectively. From the unitary management fee, the Adviser pays most of the expenses of each Fund, including the cost of sub-advisory fees to any investment sub-adviser, the cost of transfer agency, custody, fund administration, legal, audit and other services. However, under the Advisory Agreements, the Adviser is not responsible for interest expenses, brokerage commissions and other trading expenses, taxes and other extraordinary costs such as litigation and other expenses not incurred in the ordinary course of business. The Adviser will not be liable for any error of judgment, mistake of law, or for any loss suffered by the Fund in connection with the performance of the Advisory Agreement, except a loss resulting from a breach of fiduciary duty with respect to the receipt of compensation for services or a loss resulting from willful misfeasance, bad faith or gross negligence on the part of the Adviser in the performance of its duties, or from reckless disregard of its obligations and duties under the Advisory Agreement.

No advisory fee information is provided since the Funds had not commenced operations prior to the date of this SAI.

Investment Sub-Advisory Agreement

SG Trading Solutions, LLC, located at 620 South Main Street, Bountiful, Utah 84010, (the “Sub-Adviser”), an affiliate of the Adviser, provides trading and execution services to the Funds pursuant to the terms of a Sub-Advisory Agreement (the “Sub-Advisory Agreement”) among the Company, the Adviser and the Sub-Adviser. After the initial two year-term, the Sub-Advisory Agreement may be continued in effect from year to year with the approval of (1) the Board or (2) vote of a majority (as defined by the 1940 Act) of the outstanding voting securities of each Fund, provided that in either event the continuance must also be approved by a majority of the Independent Directors by vote cast in person at a meeting called for the purpose of voting on such approval. The Sub-Advisory Agreement terminates automatically in the event of its assignment, as defined in the 1940 Act and the rules thereunder.

For its services, the Sub-Adviser receives a fee from the Adviser, calculated daily and paid monthly, equal to 0.05% of the average daily net assets of each Fund

The Sub-Advisory Agreement provides that the Sub-Adviser shall not be protected against any liability to the Company or its shareholders by reason of willful misfeasance, bad faith or gross negligence on its part in the performance of its duties, or from reckless disregard of its obligations or duties thereunder.

PORTFOLIO MANAGERS

This section includes information about each Fund’s portfolio managers, including information about other accounts they manage, the dollar range of Fund shares they own and how they are compensated.

The Adviser

Description of Compensation. The portfolio managers are compensated through equity ownership of the Adviser, adjusted to reflect current market rates, and therefore compensation is in part based on the value of a Fund’s net assets and other client accounts they are managing. The Adviser’s Board of Managers reviews the compensation of each portfolio manager periodically and may make modifications in compensation as it deems necessary to reflect changes in the market.

Other Accounts. In addition to the Funds, each portfolio manager is responsible for the day-to-day management of certain other accounts, as listed below. The information below is provided as of August 31, 2022.

Portfolio Manager; Other Accounts	Total Accounts		Accounts With Performance-Based Fees	
	Number	Assets	Number	Assets
David Harden				
Registered Investment Companies	6	\$694 million	0	\$0
Other Pooled Investment Vehicles	0	\$0	0	\$0
Other Accounts	9	\$641 million	1	\$3 million
Aash Shah				
Registered Investment Companies	6	\$694 million	0	\$0
Other Pooled Investment Vehicles	0	\$0	0	\$0
Other Accounts	9	\$641 million	1	\$3 million

Conflict of Interest. The portfolio managers’ management of other accounts may give rise to potential conflicts of interest in connection with his management of a Fund’s investments, on the one hand, and the investments of the other accounts, on the other. The other accounts may have the same investment objective as a Fund. Therefore, a potential conflict of interest may arise as a result of the identical investment objectives, whereby a portfolio manager could favor one account over another. Another potential conflict could include the portfolio managers’ knowledge about the size, timing and possible market impact of Fund trades, whereby a portfolio manager could use this information to the advantage of other accounts and to the disadvantage of a Fund. However, the Adviser has established policies and procedures to ensure that the purchase and sale of securities among all accounts it manages are fairly and equitably allocated.

Securities Ownership. The portfolio managers did not own any shares of the Funds as no shares of the Funds were outstanding prior to the date of this SAI.

UNDERWRITER

The Company has entered into a distribution agreement (the “Distribution Agreement”) with Quasar Distributors, LLC (the “Distributor”), 111 East Kilbourn Avenue, Suite 2200, Milwaukee, Wisconsin 53202, pursuant to which the Distributor acts as each Fund’s principal underwriter and distributes shares. Shares are continuously offered for sale by the Distributor only in Creation Units. Each Creation Unit is made up of at least 5,000 shares. The Distributor will not distribute Shares in amounts less than a Creation Unit.

Under the Distribution Agreement, the Distributor, as agent for the Company, will receive orders for the purchase and redemption of Creation Units, provided that any subscriptions and orders will not be binding on the Company until accepted by the Company. The Distributor will deliver prospectuses and, upon request, Statements of Additional Information to persons purchasing Creation Units and will maintain records of orders placed with it. The Distributor is a broker-dealer registered under the Securities Exchange Act of 1934, as amended (the “Exchange Act”) and a member of the Financial Industry Regulatory Authority (“FINRA”).

The Distributor may also enter into agreements with securities dealers (“Soliciting Dealers”) who will solicit purchases of Creation Units of shares. Such Soliciting Dealers may also be Authorized Participants (as discussed in “Procedures for Creation of Creation Units” below) or DTC Participants.

The Distribution Agreement has an initial term of up to two years and will continue in effect only if such continuance is specifically approved at least annually by the Board or by vote of a majority of the Fund's outstanding voting securities and, in either case, by a majority of the Independent Directors. The Distribution Agreement is terminable without penalty by the Company, on behalf of the Fund, on 60 days' written notice when authorized either by a majority vote of the Fund's shareholders or by vote of a majority of the Board, including a majority of the Directors who are not "interested persons" (as defined under the 1940 Act) of the Company, or by the Distributor on 60 days' written notice, and will automatically terminate in the event of its "assignment," as defined in the 1940 Act.

PURCHASE AND REDEMPTION OF CREATION UNITS

Purchase and Issuance of Creation Units

The Company issues and sells shares of the Funds only: (i) in Creation Units on a continuous basis through the Distributor, without a sales load (but subject to transaction fees), at their NAV next determined after receipt of an order, on any Business Day, in proper form pursuant to the terms of the Authorized Participant Agreement ("Participant Agreement"); or (ii) pursuant to the Dividend Reinvestment Service (defined below). The NAV of each Fund's shares is calculated each business day as of the close of regular trading on the Exchange, generally 4:00 p.m., Eastern Time. The Funds will not issue fractional Creation Units. A Business Day is any day on which the Exchange is open for business.

FUND DEPOSIT. The consideration for purchase of a Creation Unit of a Fund generally consists of the in-kind deposit of a designated portfolio of securities (the "Deposit Securities") per each Creation Unit, which typically replicates the Portfolio Reference Basket/Proxy Portfolio, plus the Cash Component (defined below), computed as described below. Notwithstanding the foregoing, the Company reserves the right to permit or require the substitution of a "cash in lieu" amount ("Deposit Cash") to be added to the Cash Component to replace any Deposit Security. When accepting purchases of Creation Units for all or a portion of Deposit Cash, a Fund may incur additional costs associated with the acquisition of Deposit Securities that would otherwise be provided by an in-kind purchaser. These additional costs associated with the acquisition of Deposit Securities ("Non-Standard Charges") may be recoverable from the purchaser of creation units. Unless a Fund has authorized a custom basket (as defined below), the names and quantities of the instruments that constitute the Deposit Securities will be the same as the Portfolio Reference Basket or Proxy Portfolio except to the extent that a Fund requires purchases and redemptions to be made entirely or in part on a cash basis.

Pursuant to the Orders, each Fund may permit or require the Fund Securities to differ from the Portfolio Reference Basket/Proxy Portfolio under certain circumstances. In such circumstances, the Fund may use a "custom basket" that includes instruments not in the Portfolio Reference Basket/Proxy Portfolio or are included in the Portfolio Reference Basket/Proxy Portfolio in different weightings. The Funds have adopted policies and procedures in accordance with Rule 6c-11 that govern the construction and acceptance of custom baskets. These policies and procedures provide detailed parameters for the construction and acceptance of custom baskets, including the process for any revisions to, or deviations from, those parameters. A custom basket may only be used when it is in a Fund's best interests to do so, which may include implementing changes in the Fund's portfolio, increasing the Fund's tax efficiency, and for other reasons. When a Fund uses a custom basket, the names and/or quantities of the instruments that constitute the Deposit Securities will differ from the Portfolio Reference Basket/Proxy Portfolio.

Together, the Deposit Securities or Deposit Cash, as applicable, and the Cash Component constitute the "Fund Deposit," which represents the minimum initial and subsequent investment amount for a Creation Unit of the Fund. The "Cash Component" is an amount equal to the difference between the NAV of the Fund's shares (per Creation Unit) and the market value of the Deposit Securities or Deposit Cash, as applicable. If the Cash Component is a positive number (*i.e.*, the NAV per Creation Unit exceeds the market value of the Deposit Securities or Deposit Cash, as applicable), the Cash Component will be such positive amount. If the Cash Component is a negative number (*i.e.*, the NAV per Creation Unit is less than the market value of the Deposit Securities or Deposit Cash, as applicable), the Cash Component shall be such negative amount and the creator will be entitled to receive cash in an amount equal to the Cash Component. The Cash Component serves the function of compensating for any differences between the NAV per Creation Unit and the market value of the Deposit Securities or Deposit Cash, as applicable. Computation of the Cash Component excludes any stamp duty or other similar fees and expenses payable upon transfer of beneficial ownership of the Deposit Securities, if applicable, which will be the sole responsibility of the Authorized Participant (as defined below).

Each Fund, through NSCC, makes available on each Business Day, immediately prior to the opening of business on the Exchange (currently 9:30 a.m., Eastern time), the list of the names and the required number of shares of each Deposit Security or the required amount of Deposit Cash, as applicable, to be included in the current Fund Deposit (based on information at the end of the previous Business Day) for the Fund. Such Fund Deposit is subject to any applicable adjustments as described below, in order to effect purchases of Creation Units of the Fund until such time as the next-announced composition of the Deposit Securities or the required amount of Deposit Cash, as applicable, is made available.

The identity and number of shares of the Deposit Securities or the amount of Deposit Cash, as applicable, required for a Fund Deposit for a Fund changes from time to time as rebalancing adjustments and corporate action events are reflected by the Sub-Adviser. The composition of the Deposit Securities will change in response to adjustments to the weighting or composition of the securities constituting the Fund's Portfolio Reference Basket/Proxy Portfolio.

The Company reserves the right to permit or require the substitution of an amount of cash (*i.e.*, a "cash in lieu" amount) to replace any Deposit Security, which will be added to the Deposit Cash, if applicable, and the Cash Component, including, without limitation, in situations where the Deposit Security: (i) may not be available in sufficient quantity for delivery; (ii) may not be eligible for transfer through the systems of DTC for corporate securities and municipal securities; (iii) may not be eligible for trading by an Authorized Participant (as defined below) or the investor for which it is acting; (iv) would be restricted under the securities laws or where the delivery of the Deposit Security to the Authorized Participant would result in the disposition of the Deposit Security by the Authorized Participant becoming restricted under the securities laws; or (v) in certain other situations (collectively, "custom orders").

CASH PURCHASE METHOD. The Company may at its discretion permit full or partial cash purchases of Creation Units of the Funds in instances permitted by the exemptive relief the Adviser is relying on in offering each Fund. When full or partial cash purchases of Creation Units are available or specified for the Funds, they will be effected in essentially the same manner as in-kind purchases thereof. In the case of a full or partial cash purchase, the Authorized Participant must pay the cash equivalent of the Deposit Securities it would otherwise be required to provide through an in-kind purchase, plus the same Cash Component required to be paid by an in-kind purchaser together with a Creation Transaction Fee and Non-Standard Charges, as may be applicable.

PROCEDURES FOR PURCHASE OF CREATION UNITS. To be eligible to place orders with the Distributor to purchase a Creation Unit of a Fund, an entity must be (i) a “Participating Party”, *i.e.*, a broker-dealer or other participant in the clearing process through the Continuous Net Settlement System of the NSCC (the “Clearing Process”), a clearing agency that is registered with the SEC; or (ii) a DTC Participant. In addition, each Participating Party or DTC Participant (each, an “Authorized Participant” or “AP”) must execute a Participant Agreement that has been agreed to by the Distributor, and that has been accepted by U.S. Bancorp Fund Services, LLC, doing business as U.S. Bank Global Fund Services (“Transfer Agent” or “Fund Services”) and the Company, with respect to purchases and redemptions of Creation Units. Each AP will agree, pursuant to the terms of a Participant Agreement, on behalf of itself or any investor on whose behalf it will act, to certain conditions, including that it will pay to the Company an amount of cash sufficient to pay the Cash Component together with the Creation Transaction Fee (defined below) and any other applicable fees and taxes. The Adviser may retain all or a portion of the Transaction Fee to the extent the Adviser bears the expenses that otherwise would be borne by the Company in connection with the purchase of a Creation Unit, which the Transaction Fee is designed to cover.

All orders to purchase shares directly from a Fund must be placed for one or more Creation Units in the manner set forth in the Participant Agreement (the “Cut-Off Time”). The date on which an order to purchase Creation Units (or an order to redeem Creation Units, as set forth below) is received and accepted is referred to as the “Order Placement Date.”

An AP may require an investor to make certain representations or enter into agreements with respect to the order (e.g., to provide for payments of cash, when required). Investors should be aware that their particular broker may not have executed a Participant Agreement and that, therefore, orders to purchase shares directly from a Fund in Creation Units have to be placed by the investor’s broker through an AP that has executed a Participant Agreement. In such cases there may be additional charges to such investor. At any given time, there may be only a limited number of broker-dealers that have executed a Participant Agreement and only a small number of such APs may have international capabilities.

On days when the Exchange closes earlier than normal, a Fund may require orders to create Creation Units to be placed earlier in the day. In addition, if a market or markets on which a Fund’s investments are primarily traded is closed on any day, a Fund will not accept orders on such day. Orders must be transmitted by an AP by telephone or other transmission method acceptable to the Distributor pursuant to procedures set forth in the Participant Agreement and in accordance with the AP Handbook. With respect to a Fund, the Distributor will notify the Custodian of such order. The Custodian will then provide such information to the appropriate local sub-custodian(s). Those placing orders through an AP should allow sufficient time to permit proper submission of the purchase order to the Distributor by the Cut-Off Time on the Business Day on which the order is placed. Economic or market disruptions or changes, or telephone or other communication failure may impede the ability to reach the Distributor or an AP.

Fund Deposits must be delivered by an AP through the Federal Reserve System (for cash) or through DTC (for corporate securities), through a subcustody agent (for foreign securities) and/or through such other arrangements allowed by the Company or its agents. With respect to foreign Deposit Securities, the Custodian will cause the subcustodian of such Fund to maintain an account into which the AP will deliver, on behalf of itself or the party on whose behalf it is acting, such Deposit Securities (or Deposit Cash for all or a part of such securities, as permitted or required), with any appropriate adjustments as advised by the Company. Foreign Deposit Securities must be delivered to an account maintained at the applicable local subcustodian. The Fund Deposit transfer must be ordered by the AP in a timely fashion so as to ensure the delivery of the requisite number of Deposit Securities or Deposit Cash, as applicable, to the account of a Fund or its agents by no later than the settlement date. All questions as to the number of Deposit Securities or Deposit Cash to be delivered, as applicable, and the validity, form and eligibility (including time of receipt) for the deposit of any tendered securities or cash, as applicable, will be determined by the Company, whose determination will be final and binding. The amount of cash represented by the Cash Component must be transferred directly to the Custodian through the Federal Reserve Bank wire transfer system in a timely manner so as to be received by the Custodian no later than the settlement date. If the Cash Component and the Deposit Securities or Deposit Cash, as applicable, are not received in a timely manner by the settlement date, the creation order may be cancelled. Upon written notice to the Distributor, such canceled order may be resubmitted the following Business Day using the Fund Deposit as newly constituted to reflect the then current NAV of the Fund.

The order will be deemed to be received on the Business Day on which the order is placed provided that the order is placed in proper form prior to the Cut-Off Time and the federal funds in the appropriate amount are deposited by 2:00 p.m., Eastern time, with the Custodian on the settlement date. If the order is not placed in proper form as required, or federal funds in the appropriate amount are not received by 2:00 p.m., Eastern time on the settlement date, then the order may be deemed to be rejected and the AP will be liable to the Fund for losses, if any, resulting therefrom. A creation request is considered to be in “proper form” if all procedures set forth in the Participant Agreement, AP Handbook and this SAI are properly followed.

ISSUANCE OF A CREATION UNIT. Except as provided herein, Creation Units will not be issued until the transfer of good title to the Company of the Deposit Securities or payment of Deposit Cash, as applicable, and the payment of the Cash Component have been completed. When the subcustodian has confirmed to the Custodian that the required Deposit Securities (or the cash value thereof) have been delivered to the account of the relevant subcustodian or subcustodians, the Distributor and the Adviser will be notified of such delivery, and the Company will issue and cause the delivery of the Creation Units. The delivery of Creation Units so created generally will occur no later than the third Business Day following the day on which the purchase order is deemed received by the Distributor. However, each Fund reserves the right to settle Creation Unit transactions on a basis other than the third Business Day following the day on which the purchase order is deemed received by the Distributor in order to accommodate foreign market holiday schedules, to account for different treatment among foreign and U.S. markets of dividend record dates and ex-dividend dates (that is the last day the holder of a security can sell the security and still receive dividends payable on the security), and in certain other circumstances. The AP will be liable to a Fund for losses, if any, resulting from unsettled orders.

Creation Units may be purchased in advance of receipt by the Company of all or a portion of the applicable Deposit Securities as described below. In these circumstances, the initial deposit will have a value greater than the NAV of the shares on the date the order is placed in proper form since in addition to available Deposit Securities, cash must be deposited in an amount equal to the sum of (i) the Cash Component, plus (ii) an additional amount of cash equal to a percentage of the market value as set forth in the Participant Agreement, of the undelivered Deposit Securities (the “Additional Cash Deposit”), which will be maintained in a separate non-interest bearing collateral account. An additional amount of cash will be required to be deposited with the Company, pending delivery of the missing Deposit Securities to the extent necessary to maintain the Additional Cash Deposit with the Company in an amount at least equal to the applicable percentage, as set forth in the Participant Agreement, of the daily marked to market value of the missing Deposit Securities. The Participant Agreement will permit the Company to buy the missing Deposit Securities at any time. APs will be liable to the Company for the costs incurred by the Company in connection with any such purchases. These costs will be deemed to include the amount by which the actual purchase price of the Deposit Securities exceeds the market value of such Deposit Securities on the day the purchase order was deemed received by the Distributor plus the brokerage and related transaction costs associated with such purchases. The Company will return any unused portion of the Additional Cash Deposit once all of the missing Deposit Securities have been properly received by the Custodian or purchased by the Company and deposited into the Company. In addition, a Transaction Fee as set forth below under “Creation Transaction Fee” will be charged in all cases, unless otherwise advised by the Funds, and Non- Standard Charges may also apply. The delivery of Creation Units so created generally will occur no later than the settlement date.

ACCEPTANCE OF ORDERS OF CREATION UNITS. The Company reserves the right to reject an order for Creation Units transmitted to it by the Distributor in respect of a Fund including, without limitation, if (a) the order is not in proper form; (b) the Deposit Securities or Deposit Cash, as applicable, delivered by the Participant are not as disseminated through the facilities of the NSCC for that date by the Custodian; (c) the investor(s), upon obtaining the shares ordered, would own 80% or more of the currently outstanding shares of the Fund; (d) the acceptance of the Fund Deposit would, in the opinion of counsel, be unlawful; or (e) the acceptance or receipt of the order for a Creation Unit would, in the opinion of counsel to the Company, be unlawful.

CREATION TRANSACTION FEE. A purchase (*i.e.*, creation) transaction fee is imposed for the transfer and other transaction costs associated with the purchase of Creation Units, and investors will be required to pay a Creation Transaction Fee regardless of the number of Creation Units created in the transaction. A Fund may adjust the creation transaction fee from time to time based upon actual experience. In addition, a Fund may impose a Non-Standard Charge of up to 2% of the value of the creation transactions for cash creations, non- standard orders, or partial cash purchases for the Fund. A Fund may adjust the Non-Standard Charge from time to time based upon actual experience. Investors who use the services of an AP, broker or other such intermediary may be charged a fee for such services, which may include an amount for the Creation Transaction Fee and Non-Standard Charges. Investors are responsible for the costs of transferring the securities constituting the Deposit Securities to the account of the Company. The Adviser may retain all or a portion of the Transaction Fee to the extent the Adviser bears the expenses that otherwise would be borne by the Company in connection with the purchase of a Creation Unit, which the Transaction Fee is designed to cover. The standard Creation Transaction Fee for the Fund is \$300.

RISKS OF PURCHASING CREATION UNITS. There are certain legal risks unique to investors purchasing Creation Units directly from a Fund. Because each Fund’s shares may be issued on an ongoing basis, a “distribution” of shares could be occurring at any time. Certain activities that a shareholder performs as a dealer could, depending on the circumstances, result in the shareholder being deemed a participant in the distribution in a manner that could render the shareholder a statutory underwriter and subject to the prospectus delivery and liability provisions of the Securities Act. For example, a shareholder could be deemed a statutory underwriter if it purchases Creation Units from a Fund, breaks them down into the constituent shares, and sells those shares directly to customers, or if a shareholder chooses to couple the creation of a supply of new shares with an active selling effort involving solicitation of secondary-market demand for shares. Whether a person is an underwriter depends upon all of the facts and circumstances pertaining to that person’s activities, and the examples mentioned here should not be considered a complete description of all the activities that could cause a shareholder to be deemed an underwriter.

Dealers who are not “underwriters” but are participating in a distribution (as opposed to engaging in ordinary secondary-market transactions), and thus dealing with each Fund’s shares as part of an “unsold allotment” within the meaning of Section 4(a)(3)(C) of the Securities Act, will be unable to take advantage of the prospectus delivery exemption provided by Section 4(a)(3)(C) of the Securities Act.

Redemption of Creation Units

Shares may be redeemed only in Creation Units at their NAV next determined after receipt of a redemption request in proper form by a Fund through the Transfer Agent and only on a Business Day. EXCEPT UPON LIQUIDATION OF A FUND, THE COMPANY WILL NOT REDEEM SHARES IN AMOUNTS LESS THAN CREATION UNITS. Investors must accumulate enough shares in the secondary market to constitute a Creation Unit in order to have such shares redeemed by the Company. There can be no assurance, however, that there will be sufficient liquidity in the public trading market at any time to permit assembly of a Creation Unit. Investors should expect to incur brokerage and other costs in connection with assembling a sufficient number of shares to constitute a redeemable Creation Unit.

With respect to each Fund, the Custodian, through the NSCC, makes available immediately prior to the opening of business on the Exchange (currently 9:30 a.m., Eastern time) on each Business Day, the list of the names and share quantities of the Fund’s portfolio securities that will be applicable (subject to possible amendment or correction) to redemption requests received in proper form (as defined below) on that day (“Fund Securities”). Fund Securities received on redemption may not be identical to Deposit Securities.

Redemption proceeds for a Creation Unit are paid either in-kind or in cash, or combination thereof, as determined by the Company. With respect to in-kind redemptions of a Fund, redemption proceeds for a Creation Unit will consist of Fund Securities -- as announced by the Custodian on the Business Day of the request for redemption received in proper form -- plus cash in an amount equal to the difference between the NAV of the shares being redeemed, as next determined after a receipt of a request in proper form, and the value of the Fund Securities (the "Cash Redemption Amount"), less any fixed redemption transaction fee as set forth below and any Non-Standard Charges. If the Fund Securities have a value greater than the NAV of the shares, a compensating cash payment equal to the differential is required to be made by or through an AP by the redeeming shareholder. Notwithstanding the foregoing, at the Company's discretion, an AP may receive the corresponding cash value of the securities in lieu of the in-kind securities value representing one or more Fund Securities.

CASH REDEMPTION METHOD. Although the Company does not ordinarily permit full or partial cash redemptions of Creation Units of the Funds, when full or partial cash redemptions of Creation Units are available or specified for a Fund, they will be effected in essentially the same manner as in-kind redemptions thereof. In the case of full or partial cash redemptions, the AP will receive the cash equivalent of the Fund Securities it would otherwise receive through an in-kind redemption, plus the same Cash Amount to be paid to an in-kind redeemer. The Fund may incur costs such as brokerage costs or taxable gains or losses that the Fund might not have incurred if the redemption had been made in-kind. These costs may decrease the Fund's NAV to the extent that the costs are not offset by a transaction fee payable by an AP. Shareholders may be subject to tax on gains they would not otherwise have been subject to and/or at an earlier date than if the Fund had effected redemptions wholly on an in-kind basis.

REDEMPTION TRANSACTION FEES. A redemption transaction fee may be imposed for the transfer and other transaction costs associated with the redemption of Creation Units, and APs will be required to pay a Redemption Transaction Fee regardless of the number of Creation Units created in the transaction. The redemption transaction fee is the same no matter how many Creation Units are being redeemed pursuant to any one redemption request. The Fund may adjust the redemption transaction fee from time to time based upon actual experience. In addition, the Fund may impose a Non-Standard Charge of up to 2% of the value of a redemption transaction for cash redemptions, non-standard orders, or partial cash redemptions for the Funds. Investors who use the services of an AP, broker or other such intermediary may be charged a fee for such services which may include an amount for the Redemption Transaction Fees and Non-Standard Charges. Investors are responsible for the costs of transferring the securities constituting the Fund Securities to the account of the Company. The Non-Standard Charges are payable to the Funds as it incurs costs in connection with the redemption of Creation Units, the receipt of Fund Securities and the Cash Redemption Amount and other transactions costs. The standard Redemption Transaction Fee for each Fund is \$300.

PROCEDURES FOR REDEMPTION OF CREATION UNITS. Orders to redeem Creation Units must be submitted in proper form to the Transfer Agent prior to the time as set forth in the Participant Agreement. A redemption request is considered to be in "proper form" if (i) an AP has transferred or caused to be transferred to the Company's Transfer Agent the Creation Unit(s) being redeemed through the book-entry system of DTC so as to be effective by the time as set forth in the Participant Agreement and (ii) a request in form satisfactory to the Company is received by the Transfer Agent from the AP on behalf of itself or another redeeming investor within the time periods specified in the Participant Agreement. If the Transfer Agent does not receive the investor's shares through DTC's facilities by the times and pursuant to the other terms and conditions set forth in the Participant Agreement, the redemption request will be rejected.

The AP must transmit the request for redemption, in the form required by the Company, to the Transfer Agent in accordance with procedures set forth in the Authorized Participant Agreement. Investors should be aware that their particular broker may not have executed an Authorized Participant Agreement, and that, therefore, requests to redeem Creation Units may have to be placed by the investor's broker through an AP which has executed an Authorized Participant Agreement. Investors making a redemption request should be aware that such request must be in the form specified by such AP. Investors making a request to redeem Creation Units should allow sufficient time to permit proper submission of the request by an AP and transfer of the shares to the Company's Transfer Agent; such investors should allow for the additional time that may be required to effect redemptions through their banks, brokers or other financial intermediaries if such intermediaries are not APs.

In connection with taking delivery of shares of Fund Securities upon redemption of Creation Units, a redeeming shareholder or AP acting on behalf of such Shareholder must maintain appropriate custody arrangements with a qualified broker-dealer, bank or other custody providers in each jurisdiction in which any of the Fund Securities are customarily traded, to which account such Fund Securities will be delivered. Deliveries of redemption proceeds generally will be made within three business days of the trade date.

ADDITIONAL REDEMPTION PROCEDURES. In connection with taking delivery of shares of Fund Securities upon redemption of Creation Units, the AP must maintain appropriate custody arrangements with a qualified broker-dealer, bank or other custody providers in each jurisdiction in which any of the Fund Securities are customarily traded, to which account such Fund Securities will be delivered. Deliveries of redemption proceeds generally will be made within three Business Days of the trade date. However, due to the schedule of holidays in certain countries, the different treatment among foreign and U.S. markets of dividend record dates and dividend ex-dates (that is the last date the holder of a security can sell the security and still receive dividends payable on the security sold), and in certain other circumstances, the delivery of in-kind redemption proceeds may take longer than three Business Days after the day on which the redemption request is received in proper form. If neither the redeeming Shareholder nor the AP acting on behalf of such redeeming Shareholder has appropriate arrangements to take delivery of the Fund Securities in the applicable foreign jurisdiction and it is not possible to make other such arrangements, or if it is not possible to effect deliveries of the Fund Securities in such jurisdiction, the Company may, in its discretion, exercise its option to redeem such shares in cash, and the redeeming shareholder will be required to receive its redemption proceeds in cash.

If it is not possible to make other such arrangements, or it is not possible to effect deliveries of the Fund Securities, the Company may in its discretion exercise its option to redeem such shares in cash, and the redeeming investor will be required to receive its redemption proceeds in cash. In addition, an investor may request a redemption in cash that each Fund may, in its sole discretion, permit. In either case, the investor will receive a cash payment equal to the NAV of its shares based on the NAV of shares of the relevant Fund next determined after the redemption request is received in proper form (minus a redemption transaction fee and additional charge for requested cash redemptions specified above, to offset the Company's brokerage and other transaction costs associated with the disposition of Fund Securities). The Funds may also, in their sole discretion, upon request of a shareholder, provide such redeemer a portfolio of securities that differs from the exact composition of the Fund Securities but does not differ in NAV.

Redemptions of shares for Fund Securities will be subject to compliance with applicable federal and state securities laws and the Fund (whether or not it otherwise permits cash redemptions) reserves the right to redeem Creation Units for cash to the extent that the Company could not lawfully deliver specific Fund Securities upon redemptions or could not do so without first registering the Fund Securities under such laws. An AP or an investor for which it is acting subject to a legal restriction with respect to a particular security included in the Fund Securities applicable to the redemption of Creation Units may be paid an equivalent amount of cash. The AP may request the redeeming investor of the shares to complete an order form or to enter into agreements with respect to such matters as compensating cash payment. Further, an AP that is not a “qualified institutional buyer,” (“QIB”) as such term is defined under Rule 144A of the Securities Act, will not be able to receive Fund Securities that are restricted securities eligible for resale under Rule 144A. An AP may be required by the Company to provide a written confirmation with respect to QIB status in order to receive Fund Securities.

Because the portfolio securities of the Funds may trade on the relevant exchange(s) on days that the Exchange is closed or are otherwise not Business Days for such Fund, shareholders may not be able to redeem their shares of a Fund, or to purchase or sell shares of such Fund on the Exchange, on days when the NAV of such Fund could be significantly affecting by events in the relevant foreign markets.

The right of redemption may be suspended or the date of payment postponed with respect to each Fund (1) for any period during which the Exchange is closed (other than customary weekend and holiday closings); (2) for any period during which trading on the Exchange is suspended or restricted; (3) for any period during which an emergency exists as a result of which disposal of the shares of the Fund or determination of the NAV of the shares is not reasonably practicable; or (4) in such other circumstance as is permitted by the SEC.

PORTFOLIO HOLDINGS INFORMATION

The Company has adopted, on behalf of each Fund, a policy relating to the selective disclosure of the Fund’s portfolio holdings by the Adviser, Board, officers, or third party service providers, in accordance with regulations that seek to ensure that disclosure of information about portfolio holdings is in the best interest of the Fund’s shareholders. The policies relating to the disclosure of a Fund’s portfolio holdings are designed to allow disclosure of portfolio holdings information where necessary to each Fund’s operation without compromising the integrity or performance of the Fund. It is the policy of the Company that disclosure of a Fund’s portfolio holdings to a select person or persons prior to the release of such holdings to the public (“selective disclosure”) is prohibited, unless there are legitimate business purposes for selective disclosure.

The Company discloses portfolio holdings information as required in regulatory filings and shareholder reports, discloses portfolio holdings information as required by federal and state securities laws and may disclose portfolio holdings information in response to requests by governmental authorities. As required by the federal securities laws, including the 1940 Act, the Company will disclose each Fund’s portfolio holdings in applicable regulatory filings, including shareholder reports, reports on Form N-CSR, Form N-CEN, and Form N-PORT, or such other filings, reports or disclosure documents as the applicable regulatory authorities may require.

The Company may distribute or authorize the distribution of information about a Fund’s portfolio holdings that is not publicly available to its third-party service providers, which include U.S. Bank, N.A., the custodian; Fund Services, the administrator, accounting agent and transfer agent; Ernst & Young LLP, the Funds’ independent registered public accounting firm; Faegre Drinker Biddle & Reath LLP, legal counsel; FilePoint, the financial printer; the Funds’ proxy voting service(s); and the Company’s liquidity classification agent. These service providers are required to keep such information confidential, and are prohibited from trading based on the information or otherwise using the information except as necessary in providing services to a Fund. Such holdings are released on conditions of confidentiality, which include appropriate trading prohibitions. “Conditions of confidentiality” include confidentiality terms included in written agreements, implied by the nature of the relationship (e.g. attorney-client relationship), or required by fiduciary or regulatory principles (e.g., custody services provided by financial institutions). Portfolio holdings may also be provided earlier to shareholders and their agents who receive redemptions in kind that reflect a pro rata allocation of all securities held in a Fund’s portfolio.

Portfolio holdings may also be disclosed, upon authorization by a designated officer of the Adviser, to (i) certain independent reporting agencies recognized by the SEC as acceptable agencies for the reporting of industry statistical information and, (ii) financial consultants to assist them in determining the suitability of the Fund as an investment for their clients, in each case in accordance with the anti-fraud provisions of the federal securities laws and the Company’s and Adviser’s fiduciary duties to Fund shareholders. Disclosures to financial consultants are also subject to a confidentiality agreement and/or trading restrictions. The foregoing disclosures are made pursuant to the Company’s policy on selective disclosure of portfolio holdings. The Board or a committee thereof may, in limited circumstances, permit other selective disclosure of portfolio holdings subject to a confidentiality agreement and/or trading restrictions.

The Adviser reserves the right to refuse to fulfill any request for portfolio holdings information from a shareholder or non-shareholder if it believes that providing such information will be contrary to the best interests of a Fund.

The Board provides ongoing oversight of the Company’s policies and procedures and compliance with such policies and procedures. As part of this oversight function, the Board receives from the Company’s CCO as necessary, reports on compliance with these policies and procedures. In addition, the Board receives an annual assessment of the adequacy and effectiveness of the policies and procedures with respect to a Fund, and any changes thereto, and an annual review of the operation of the policies and procedures. Any violation of the policy set forth above as well as any corrective action undertaken to address such violation must be reported by the Adviser, director, officer or third party service provider to the Company’s CCO, who will determine whether the violation should be reported immediately to the Board or at its next quarterly Board meeting.

On each Business Day, before commencement of trading in shares on the Exchange, the Dynamic Tactical Fund will disclose on its website the Fund's Portfolio Reference Basket and Guardrail Amount and the Large Cap Core Fund will disclose on its website the Fund's Proxy Portfolio. The Portfolio Reference Basket/Proxy Portfolio published on the Funds' website each Business Day will include the following information for each portfolio holding in the Portfolio Reference Basket/Proxy Portfolio: (1) ticker symbol; (2) CUSIP or other identifier; (3) description of holding; (4) quantity of each security or other asset held; and (5) percentage weight of the holding in the Portfolio Reference Basket. Each Fund will provide a full list of holdings, including its top ten holdings, quarterly on www.sgi.com 60 days after the quarter-end.

DETERMINATION OF NET ASSET VALUE

In accordance with procedures adopted by the Board, the NAV per share of each Fund is calculated by determining the value of the net assets attributed to the Fund and dividing by the number of outstanding shares of the Fund. All securities are valued on each Business Day as of the close of regular trading on the NYSE (normally, but not always, 4:00 p.m. Eastern Time) or such other time as the NYSE or National Association of Securities Dealers Automated Quotations System ("NASDAQ") market may officially close. The term "Business Day" means any day the NYSE is open for trading, which is Monday through Friday except for holidays. The NYSE is generally closed on the following holidays: New Year's Day (observed), Martin Luther King, Jr. Day, Washington's Birthday (observed), Good Friday, Memorial Day, Juneteenth National Independence Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day.

The time at which transactions and shares are priced and the time by which orders must be received may be changed in case of an emergency or if regular trading on the NYSE is stopped at a time other than 4:00 p.m. Eastern Time. The Company reserves the right to reprocess purchase, redemption and exchange transactions that were initially processed at a NAV other than the Fund's official closing NAV (as the same may be subsequently adjusted), and to recover amounts from (or distribute amounts to) shareholders based on the official closing NAV. The Company reserves the right to advance the time by which purchase and redemption orders must be received for same business day credit as otherwise permitted by the SEC. In addition, the Fund may compute its NAV as of any time permitted pursuant to any exemption, order or statement of the SEC or its staff.

The securities of each Fund are valued under the direction of the Funds' administrator and under the general supervision of the Board. Prices are generally determined using readily available market prices. Subject to the approval of the Board, the Funds may employ outside organizations, which may use a matrix or formula method that takes into consideration market indices, matrices, yield curves and other specific adjustments in determining the approximate market value of portfolio investments. This may result in the investments being valued at a price that differs from the price that would have been determined had the matrix or formula method not been used. All cash, receivables, and current payables are carried on a Fund's books at their face value. Other assets, if any, are valued at fair value as determined in good faith by the Funds' Valuation Committee under the direction of the Board.

The procedures used by any pricing service and its valuation results are reviewed by the officers of the Company under the general supervision of the Board.

A Fund or an Underlying Fund may hold portfolio securities that are listed on foreign exchanges. These securities may trade on weekends or other days when the Underlying Funds or the Funds do not calculate NAV. As a result, the value of these investments may change on days when you cannot purchase or sell Fund shares.

DIVIDENDS, DISTRIBUTIONS, AND TAXES

The following information supplements and should be read in conjunction with the section in the Funds' Prospectus titled "DIVIDENDS, DISTRIBUTIONS, AND TAXES." In addition, the following is only a summary of certain U.S. federal income tax considerations that generally affect the Funds and their shareholders. No attempt is made to present a comprehensive explanation of the tax treatment of a Fund or its shareholders, and the discussion here and in the Prospectus is not intended as a substitute for careful tax planning. Shareholders are urged to consult their tax advisors with specific reference to their own tax situations, including their state, local, and foreign tax liabilities.

It is the policy of the Company each fiscal year to distribute substantially all of each Fund's net investment income (*i.e.*, generally, the income that it earns from dividends and interest on its investments, and any short-term capital gains, net of Fund expenses) and net capital gains (*i.e.*, the excess of the Fund's net long-term capital gains over its net short-term capital losses), if any, to its shareholders.

Dividend Reinvestment Service

The Funds will not make the DTC book-entry dividend reinvestment service available for use by beneficial owners for reinvestment of their cash proceeds, but certain individual broker-dealers may make available the DTC book-entry Dividend Reinvestment Service for use by beneficial owners of the Funds through DTC Participants for reinvestment of their dividend distributions. Investors should contact their brokers to ascertain the availability and description of these services. Beneficial owners should be aware that each broker may require investors to adhere to specific procedures and timetables in order to participate in the dividend reinvestment service and investors should ascertain from their brokers such necessary details. If this service is available and used, dividend distributions of both income and realized gains will be automatically reinvested in additional whole shares issued by a Fund at NAV. Distributions reinvested in additional shares of each Fund will nevertheless be taxable to beneficial owners acquiring such additional shares to the same extent as if such distributions had been received in cash.

Taxes – General

The discussions of the federal tax consequences in the Prospectus and this SAI are based on the Code and the regulations issued under it, and court decisions and administrative interpretations, as in effect on the date of this SAI. Future legislative or administrative changes or court decisions may significantly alter the statements included herein, and any such changes or decisions may be retroactive. Each Fund intends to qualify as a regulated investment company under Subchapter M of Subtitle A, Chapter 1, of the Code. As such, each Fund generally will be exempt from federal income tax on its net investment income and realized capital gains that it distributes to shareholders. To qualify for treatment as a regulated investment company, each Fund must meet three important tests each year.

First, each Fund must derive with respect to each taxable year at least 90% of its gross income from dividends, interest, certain payments with respect to securities loans, gains from the sale or other disposition of stock or securities or foreign currencies, other income derived with respect to its business of investing in such stock, securities, or currencies, or net income derived from interests in qualified publicly traded partnerships.

Second, generally, at the close of each quarter of its taxable year, at least 50% of the value of each Fund's assets must consist of cash and cash items, U.S. government securities, securities of other regulated investment companies, and securities of other issuers (as to which the Fund has not invested more than 5% of the value of its total assets in securities of such issuer and as to which the Fund does not hold more than 10% of the outstanding voting securities of such issuer), and no more than 25% of the value of each Fund's total assets may be invested in the securities of (1) any one issuer (other than U.S. government securities and securities of other regulated investment companies), (2) two or more issuers that the Fund controls and that are engaged in the same or similar trades or businesses, or (3) one or more qualified publicly traded partnerships.

Third, each Fund must distribute an amount equal to at least the sum of 90% of its investment company taxable income (net investment income and the excess of net short-term capital gain over net long-term capital loss) before taking into account any deduction for dividends paid, and 90% of its tax-exempt income, if any, for the year.

Each Fund intends to comply with these requirements. If a Fund were to fail to make sufficient distributions, it could be liable for corporate income tax and for excise tax in respect of the shortfall or, if the shortfall is large enough, the Fund could be disqualified as a regulated investment company. If for any taxable year a Fund were not to qualify as a regulated investment company, all its taxable income would be subject to tax at regular corporate rates without any deduction for distributions to shareholders. In that event, taxable shareholders would recognize dividend income on distributions to the extent of the Fund's current and accumulated earnings and profits, and corporate shareholders could be eligible for the dividends-received deduction.

The Code imposes a nondeductible 4% excise tax on regulated investment companies that fail to distribute each year an amount equal to specified percentages of their ordinary taxable income and capital gain net income (excess of capital gains over capital losses). Each Fund intends to make sufficient distributions or deemed distributions each year to avoid liability for this excise tax.

Loss Carryforwards

For federal income tax purposes, each Fund is generally permitted to carry forward a net capital loss in any year to offset its own capital gains, if any, during subsequent years.

State and Local Taxes

Although each Fund expects to qualify as a regulated investment company and to be relieved of all or substantially all federal income taxes, depending upon the extent of its activities in states and localities in which its offices are maintained, in which its agents or independent contractors are located or in which it is otherwise deemed to be conducting business, a Fund may be subject to the tax laws of such states or localities.

PORTFOLIO TRANSACTIONS AND BROKERAGE

Subject to policies established by the Board and applicable rules, the Adviser is responsible for the execution of portfolio transactions and the allocation of brokerage transactions for the Funds. In executing portfolio transactions, the Adviser seeks to obtain the best price and most favorable execution for the Funds, taking into account such factors as the price (including the applicable brokerage commission or dealer spread), size of the order, difficulty of execution and operational facilities of the firm involved. While the Adviser generally seeks reasonably competitive commission rates, payment of the lowest commission or spread is not necessarily consistent with obtaining the best price and execution in particular transactions.

Brokerage Transactions

Generally, equity securities, both listed and over-the-counter, are bought and sold through brokerage transactions for which commissions are payable. Purchases from underwriters will include the underwriting commission or concession, and purchases from dealers serving as market makers will include a dealer's mark-up or reflect a dealer's mark-down. Money market securities and other debt securities are usually bought and sold directly from the issuer or an underwriter or market maker for the securities. Generally, the Fund will not pay brokerage commissions for such purchases. When a debt security is bought from an underwriter, the purchase price will usually include an underwriting commission or concession. The purchase price for securities bought from dealers serving as market makers will similarly include the dealer's mark up or reflect a dealer's mark down. When a Fund executes transactions in the over-the-counter market, it will generally deal with primary market makers unless prices that are more favorable are otherwise obtainable.

In addition, the Adviser may place a combined order for two or more accounts they manage, including the Funds, engaged in the purchase or sale of the same security if, in its judgment, joint execution is in the best interest of each participant and will result in best price and execution. Transactions involving commingled orders are allocated in a manner deemed equitable to each account and each Fund. Although it is recognized that, in some cases, the joint execution of orders could adversely affect the price or volume of the security that a particular account or Fund may obtain, it is the opinion of the Adviser and the Board that the advantages of combined orders outweigh the possible disadvantages of separate transactions. Nonetheless, the Adviser believes that the ability of a Fund to participate in higher volume transactions will generally be beneficial to the Fund.

No brokerage commission information is provided as the Funds had not commenced operations prior to the date of this SAI.

Each Fund is required to identify any securities of the Company's regular broker-dealers (as defined in Rule 10b-1 under the 1940 Act) or their parents held by the Fund as of the end of the most recent fiscal year. Information about the Funds' ownership of its regular broker-dealers is not provided as the Funds had not commenced operations prior to the date of this SAI.

Brokerage Selection

The Company does not expect to use one particular broker or dealer, and when one or more brokers is believed capable of providing the best combination of price and execution, the Adviser may select a broker based upon brokerage or research services provided to the Adviser. The Adviser may pay a higher commission than otherwise obtainable from other brokers in return for such services only if a good faith determination is made that the commission is reasonable in relation to the services provided.

Section 28(e) of the Securities Exchange Act of 1934, as amended, permits an investment adviser, under certain circumstances, to cause a fund to pay a broker or dealer a commission for effecting a transaction in excess of the amount of commission another broker or dealer would have charged for effecting the transaction in recognition of the value of brokerage and research services provided by the broker or dealer. In addition to agency transactions, the Adviser may receive brokerage and research services in connection with certain riskless principal transactions, in accordance with applicable SEC guidance. Brokerage and research services include: (1) furnishing advice as to the value of securities, the advisability of investing in, purchasing or selling securities, and the availability of securities or purchasers or sellers of securities; (2) furnishing analyses and reports concerning issuers, industries, securities, economic factors and trends, portfolio strategy, and the performance of accounts; and (3) effecting securities transactions and performing functions incidental thereto (such as clearance, settlement, and custody). In the case of research services, the Adviser believes that access to independent investment research is beneficial to their investment decision-making processes and, therefore, to the Funds.

To the extent research services may be a factor in selecting brokers, such services may be in written form or through direct contact with individuals and may include information as to particular companies and securities as well as market, economic, or institutional areas and information which assists in the valuation and pricing of investments. Examples of research-oriented services for which the Adviser might utilize Fund commissions include research reports and other information on the economy, industries, sectors, groups of securities, individual companies, statistical information, political developments, technical market action, pricing and appraisal services, credit analysis, risk measurement analysis, performance and other analysis. The Adviser may use research services furnished by brokers in servicing all client accounts and not all services may necessarily be used in connection with the account that paid commissions to the broker providing such services. Information so received by the Adviser will be in addition to and not in lieu of the services required to be performed by the Adviser under the Advisory Agreement. Any advisory or other fees paid to the Adviser are not reduced as a result of the receipt of research services.

In some cases, the Adviser may receive a service from a broker that has both a "research" and a "non-research" use. When this occurs, the Adviser makes a good faith allocation, under all the circumstances, between the research and non-research uses of the service. The percentage of the service that is used for research purposes may be paid for with client commissions, while the Adviser will use its own funds to pay for the percentage of the service that is used for non-research purposes. In making this good faith allocation, the Adviser faces a potential conflict of interest, but the Adviser believes that its allocation procedures are reasonably designed to ensure that it appropriately allocates the anticipated use of such services to their research and non-research uses.

SECURITIES LENDING

U.S. Bank, N.A. serves as securities lending agent for the Funds and in that role administers the Funds' securities lending program pursuant to the terms of a Master Securities Lending Agreement entered into between the Funds and U.S. Bank, N.A.

As securities lending agent, U.S. Bank, N.A. is responsible for marketing to approved borrowers available securities from the Funds' portfolio. U.S. Bank, N.A. is responsible for the administration and management of the Funds' securities lending program, including the preparation and execution of a participant agreement with each borrower governing the terms and conditions of any securities loan, ensuring that securities loans are properly coordinated and documented with the Funds' custodian, ensuring that loaned securities are daily valued and that the corresponding required cash collateral of at least 102% of the current market value of the loaned securities is delivered by the borrower(s), using best efforts to obtain additional collateral on the next business day if the value of the collateral falls below the required amount, and arranging for the investment of cash collateral received from borrowers in accordance with the Funds' investment guidelines.

U.S. Bank, N.A. receives as compensation for its services a portion of the amount earned by the Funds for lending securities.

No securities lending information is provided since the Funds had not commenced operations prior to the date of this SAI.

PROXY VOTING PROCEDURES

The Board has delegated the responsibility of voting proxies with respect to the portfolio securities purchased and/or held by the Funds to the Adviser, subject to the Board's continuing oversight. In exercising its voting obligations, the Adviser is guided by its general fiduciary duty to act prudently and in the interest of the Funds. The Adviser will consider factors affecting the value of a Fund's investments and the rights of shareholders in its determination on voting portfolio securities.

The Adviser will vote proxies in accordance with its proxy policies and procedures, which are included in Appendix B to this SAI.

More Information

Each year, the Funds will make available the actual voting records relating to portfolio securities held by each Fund during the 12-month period ending June 30 without charge, upon request by calling 1-800-617-0004, or by accessing the SEC's website at www.sec.gov. In addition, a copy of the Adviser's proxy-voting policies and procedures is available by calling 1-800-617-0004 and will be sent within three business days of receipt of a request.

PAYMENTS TO FINANCIAL INTERMEDIARIES

The Adviser, Sub-Adviser and/or their affiliates, at their discretion, may make payments from their own resources and not from Fund assets to affiliated or unaffiliated brokers, dealers, banks (including bank trust departments), trust companies, registered investment advisers, financial planners, retirement plan administrators, insurance companies, and any other institution having a service, administration, or any similar arrangement with the Funds, their service providers or their respective affiliates, as incentives to help market and promote the Funds and/or in recognition of their distribution, marketing, administrative services, and/or processing support.

These additional payments may be made to financial intermediaries that sell Fund shares or provide services to the Funds, the Distributor or shareholders of the Funds through the financial intermediary's retail distribution channel and/or fund supermarkets. Payments may also be made through the financial intermediary's retirement, qualified tuition, fee-based advisory, wrap fee bank trust, or insurance (e.g., individual or group annuity) programs. These payments may include, but are not limited to, placing a Fund in a financial intermediary's retail distribution channel or on a preferred or recommended fund list; providing business or shareholder financial planning assistance; educating financial intermediary personnel about a Fund; providing access to sales and management representatives of the financial intermediary; promoting sales of Fund shares; providing marketing and educational support; maintaining share balances and/or for sub-accounting, administrative or shareholder transaction processing services. A financial intermediary may perform the services itself or may arrange with a third party to perform the services.

The Adviser, Sub-Adviser and/or their affiliates may also make payments from their own resources to financial intermediaries for costs associated with the purchase of products or services used in connection with sales and marketing, participation in and/or presentation at conferences or seminars, sales or training programs, client and investor entertainment and other sponsored events. The costs and expenses associated with these efforts may include travel, lodging, sponsorship at educational seminars and conferences, entertainment and meals to the extent permitted by law.

Revenue sharing payments may be negotiated based on a variety of factors, including the level of sales, the amount of Fund assets attributable to investments in a Fund by financial intermediaries' customers, a flat fee or other measures as determined from time to time by the Adviser and/or its affiliates. A significant purpose of these payments is to increase the sales of Fund shares, which in turn may benefit the Adviser through increased fees as Fund assets grow.

ADDITIONAL INFORMATION CONCERNING COMPANY SHARES

The Company has authorized capital of 100 billion shares of common stock at a par value of \$0.001 per share. Currently, 90.623 billion shares have been classified into 213 classes. However, the Company only has approximately 54 active share classes that have begun investment operations. Under the Company's charter, the Board has the power to classify and reclassify any unissued shares of common stock from time to time.

Each share that represents an interest in a Fund has an equal proportionate interest in the assets belonging to that Fund with each other share that represents an interest in that Fund, even where a share has a different class designation than another share representing an interest in that Fund. Shares of the Company do not have preemptive or conversion rights. When issued for payment as described in the Prospectus, shares of the Company will be fully paid and non-assessable.

The Company does not currently intend to hold annual meetings of shareholders except as required by the 1940 Act or other applicable law. The Company's amended By-Laws provide that shareholders owning at least ten percent of the outstanding shares of all classes of Common Stock of the Company have the right to call for a meeting of shareholders to consider the removal of one or more directors. To the extent required by law, the Company will assist in shareholder communication in such matters.

Holders of shares of each class of the Company will vote in the aggregate on all matters, except where otherwise required by law. Further, shareholders of the Company will vote in the aggregate and not by portfolio except as otherwise required by law or when the Board determines that the matter to be voted upon affects only the interests of the shareholders of a particular portfolio or class of shares. Rule 18f-2 under the 1940 Act provides that any matter required to be submitted by the provisions of such Act or applicable state law, or otherwise, to the holders of the outstanding voting securities of an investment company such as the Company shall not be deemed to have been effectively acted upon unless approved by the holders of a majority of the outstanding voting securities of each portfolio affected by the matter. Rule 18f-2 further provides that a portfolio shall be deemed to be affected by a matter unless it is clear that the interests of each portfolio in the matter are identical or that the matter does not affect any interest of the portfolio. Under Rule 18f-2 the approval of an investment advisory agreement or distribution agreement or any change in a fundamental investment objective or fundamental investment policy would be effectively acted upon with respect to a portfolio only if approved by the holders of a majority of the outstanding voting securities of such portfolio. However, the Rule 18f-2 also provides that the ratification of the selection of independent public accountants and the election of directors are not subject to the separate voting requirements and may be effectively acted upon by shareholders of an investment company voting without regard to a portfolio. Shareholders of the Company are entitled to one vote for each full share held (irrespective of class or portfolio) and fractional votes for fractional shares held. Voting rights are not cumulative and, accordingly, the holders of more than 50% of the aggregate shares of common stock of the Company may elect all of the Directors.

Notwithstanding any provision of Maryland law requiring a greater vote of shares of the Company's common stock (or of any class voting as a class) in connection with any corporate action, unless otherwise provided by law (for example by Rule 18f-2 discussed above), or by the Company's Articles of Incorporation and By-Laws, the Company may take or authorize such action upon the favorable vote of the holders of more than 50% of all of the outstanding shares of Common Stock voting without regard to class (or portfolio).

GENERAL INFORMATION

Anti-Money Laundering Program

The Funds have established an Anti-Money Laundering Compliance Program (the "Program") as required by the Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001 ("USA PATRIOT Act"). To ensure compliance with this law, the Funds' Program provides for the development of internal practices, procedures, and controls, designation of anti-money laundering compliance officers, an ongoing training program, and an independent audit function to determine the effectiveness of the Program.

Procedures to implement the Program include, but are not limited to, determining that certain of its service providers have established proper anti-money laundering procedures, reporting suspicious and/or fraudulent activity, and conducting a complete and thorough review of all new account applications. The Funds will not transact business with any person or legal entity and beneficial owner, if applicable, whose identity cannot be adequately verified under the provisions of the USA PATRIOT Act.

Independent Registered Public Accounting Firm

Ernst & Young LLP, located at One Commerce Square, 2005 Market Street, Suite 700, Philadelphia, Pennsylvania 19103, is the independent registered public accounting firm of the Funds. The independent registered public accounting firm is responsible for conducting the annual audit of the Funds' financial statements. The selection of the independent registered public accounting firm is approved annually by the Board.

Transfer Agent

Fund Services, 615 East Michigan Street, Milwaukee, Wisconsin 53202, serves as the Funds' transfer agent and dividend disbursing agent.

Custodian

U.S. Bank, N.A, 1555 North Rivercenter Drive, Suite 302, Milwaukee, WI 53212, serves as custodian (the "Custodian") of the Funds' assets and is responsible for maintaining custody of the Funds' cash and investments and retaining sub-custodians, including in connection with the custody of foreign securities. Cash held by the Custodian, the amount of which may at times be substantial, is insured by the Federal Deposit Insurance Corporation up to the amount of available insurance coverage limits. The Custodian and Fund Services are affiliates.

Administrator

Fund Services, 615 East Michigan Street, Milwaukee, WI 53202, serves as the administrator (the "Administrator") and provides various administrative and accounting services necessary for the operations of the Funds. Services provided by the Administrator include facilitating general Fund management; monitoring Fund compliance with federal and state regulations; supervising the maintenance of the Funds' general ledger, the preparation of the Funds' financial statements, the determination of NAV, and the payment of dividends and other distributions to shareholders; and preparing specified financial, tax, and other reports. Fund Services and the Custodian are affiliates.

No administration fee information is provided since the Funds had not commenced operations prior to the date of this SAI.

Legal Counsel

Faegre Drinker Biddle & Reath LLP, One Logan Square, Suite 2000, Philadelphia, Pennsylvania 19103-6996, serves as counsel to the Company.

Registration Statement

This SAI and the Prospectus do not contain all of the information set forth in the Registration Statement the Company has filed with the SEC. The complete Registration Statement may be obtained from the SEC upon payment of the fee prescribed by SEC rules and regulations. A text-only version of the Registration Statement is available on the SEC's website, www.sec.gov.

FINANCIAL STATEMENTS

As the Funds had not commenced operations prior to the date of this SAI, there are no financial statements available at this time. Shareholders of the Funds will be informed of each Fund's progress through periodic reports when those reports become available. Financial statements certified by the independent registered public accounting firm will be submitted to shareholders at least annually.

APPENDIX A

DESCRIPTION OF SECURITIES RATINGS

Short-Term Credit Ratings

An **S&P Global Ratings** short-term issue credit rating is generally assigned to those obligations considered short-term in the relevant market. The following summarizes the rating categories used by S&P Global Ratings for short-term issues:

“A-1” – A short-term obligation rated “A-1” is rated in the highest category by S&P Global Ratings. The obligor’s capacity to meet its financial commitments on the obligation is strong. Within this category, certain obligations are designated with a plus sign (+). This indicates that the obligor’s capacity to meet its financial commitment on these obligations is extremely strong.

“A-2” – A short-term obligation rated “A-2” is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher rating categories. However, the obligor’s capacity to meet its financial commitments on the obligation is satisfactory.

“A-3” – A short-term obligation rated “A-3” exhibits adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely to weaken an obligor’s capacity to meet its financial commitments on the obligation.

“B” – A short-term obligation rated “B” is regarded as vulnerable and has significant speculative characteristics. The obligor currently has the capacity to meet its financial commitments; however, it faces major ongoing uncertainties that could lead to the obligor’s inadequate capacity to meet its financial commitments.

“C” – A short-term obligation rated “C” is currently vulnerable to nonpayment and is dependent upon favorable business, financial, and economic conditions for the obligor to meet its financial commitments on the obligation.

“D” – A short-term obligation rated “D” is in default or in breach of an imputed promise. For non-hybrid capital instruments, the “D” rating category is used when payments on an obligation are not made on the date due, unless S&P Global Ratings believes that such payments will be made within any stated grace period. However, any stated grace period longer than five business days will be treated as five business days. The “D” rating also will be used upon the filing of a bankruptcy petition or the taking of a similar action and where default on an obligation is a virtual certainty, for example due to automatic stay provisions. A rating on an obligation is lowered to “D” if it is subject to a distressed debt restructuring.

Local Currency and Foreign Currency Ratings – S&P Global Ratings’ issuer credit ratings make a distinction between foreign currency ratings and local currency ratings. A foreign currency rating on an issuer can differ from the local currency rating on it when the obligor has a different capacity to meet its obligations denominated in its local currency, versus obligations denominated in a foreign currency.

“NR” – This indicates that a rating has not been assigned or is no longer assigned.

Moody’s Investors Service (“Moody’s”) short-term ratings are forward-looking opinions of the relative credit risks of financial obligations with an original maturity of thirteen months or less and reflect both on the likelihood of a default or impairment on contractual financial obligations and the expected financial loss suffered in the event of default or impairment.

Moody’s employs the following designations to indicate the relative repayment ability of rated issuers:

“P-1” – Issuers (or supporting institutions) rated Prime-1 reflect a superior ability to repay short-term obligations.

“P-2” – Issuers (or supporting institutions) rated Prime-2 reflect a strong ability to repay short-term obligations.

“P-3” – Issuers (or supporting institutions) rated Prime-3 reflect an acceptable ability to repay short-term obligations.

“NP” – Issuers (or supporting institutions) rated Not Prime do not fall within any of the Prime rating categories.

“NR” – Is assigned to an unrated issuer, obligation and/or program.

Fitch, Inc. / Fitch Ratings Ltd. (“Fitch”) short-term issuer or obligation rating is based in all cases on the short-term vulnerability to default of the rated entity and relates to the capacity to meet financial obligations in accordance with the documentation governing the relevant obligation. Short-term deposit ratings may be adjusted for loss severity. Short-term ratings are assigned to obligations whose initial maturity is viewed as “short-term” based on market convention. ¹Typically, this means up to 13 months for corporate, sovereign, and structured obligations and up to 36 months for obligations in U.S. public finance markets. The following summarizes the rating categories used by Fitch for short-term obligations:

¹ A long-term rating can also be used to rate an issue with short maturity.

“F1” – Securities possess the highest short-term credit quality. This designation indicates the strongest intrinsic capacity for timely payment of financial commitments; may have an added “+” to denote any exceptionally strong credit feature.

“F2” – Securities possess good short-term credit quality. This designation indicates good intrinsic capacity for timely payment of financial commitments.

“F3” – Securities possess fair short-term credit quality. This designation indicates that the intrinsic capacity for timely payment of financial commitments is adequate.

“B” – Securities possess speculative short-term credit quality. This designation indicates minimal capacity for timely payment of financial commitments, plus heightened vulnerability to near term adverse changes in financial and economic conditions.

“C” – Securities possess high short-term default risk. Default is a real possibility.

“RD” – Restricted default. Indicates an entity that has defaulted on one or more of its financial commitments, although it continues to meet other financial obligations. Typically applicable to entity ratings only.

“D” – Default. Indicates a broad-based default event for an entity, or the default of a short-term obligation.

“NR” – Is assigned to an issue of a rated issuer that are not and have not been rated.

The **DBRS Morningstar® Ratings Limited (“DBRS Morningstar”)** short-term obligation ratings provide DBRS Morningstar’s opinion on the risk that an issuer will not meet its short-term financial obligations in a timely manner. The obligations rated in this category typically have a term of shorter than one year. The R-1 and R-2 rating categories are further denoted by the subcategories “(high)”, “(middle)”, and “(low)”.

The following summarizes the ratings used by DBRS Morningstar for commercial paper and short-term debt:

“R-1 (high)” - Short-term debt rated “R-1 (high)” is of the highest credit quality. The capacity for the payment of short-term financial obligations as they fall due is exceptionally high. Unlikely to be adversely affected by future events.

“R-1 (middle)” – Short-term debt rated “R-1 (middle)” is of superior credit quality. The capacity for the payment of short-term financial obligations as they fall due is very high. Differs from “R-1 (high)” by a relatively modest degree. Unlikely to be significantly vulnerable to future events.

“R-1 (low)” – Short-term debt rated “R-1 (low)” is of good credit quality. The capacity for the payment of short-term financial obligations as they fall due is substantial. Overall strength is not as favorable as higher rating categories. May be vulnerable to future events, but qualifying negative factors are considered manageable.

“R-2 (high)” – Short-term debt rated “R-2 (high)” is considered to be at the upper end of adequate credit quality. The capacity for the payment of short-term financial obligations as they fall due is acceptable. May be vulnerable to future events.

“R-2 (middle)” – Short-term debt rated “R-2 (middle)” is considered to be of adequate credit quality. The capacity for the payment of short-term financial obligations as they fall due is acceptable. May be vulnerable to future events or may be exposed to other factors that could reduce credit quality.

“R-2 (low)” – Short-term debt rated “R-2 (low)” is considered to be at the lower end of adequate credit quality. The capacity for the payment of short-term financial obligations as they fall due is acceptable. May be vulnerable to future events. A number of challenges are present that could affect the issuer’s ability to meet such obligations.

“R-3” – Short-term debt rated “R-3” is considered to be at the lowest end of adequate credit quality. There is a capacity for the payment of short-term financial obligations as they fall due. May be vulnerable to future events and the certainty of meeting such obligations could be impacted by a variety of developments.

“R-4” – Short-term debt rated “R-4” is considered to be of speculative credit quality. The capacity for the payment of short-term financial obligations as they fall due is uncertain.

“R-5” – Short-term debt rated “R-5” is considered to be of highly speculative credit quality. There is a high level of uncertainty as to the capacity to meet short-term financial obligations as they fall due.

“D” – Short-term debt rated “D” is assigned when the issuer has filed under any applicable bankruptcy, insolvency or winding-up statute or there is a failure to satisfy an obligation after the exhaustion of grace periods. DBRS Morningstar may also use “SD” (Selective Default) in cases where only some securities are impacted, such as the case of a “distressed exchange”.

Long-Term Issue Credit Ratings

The following summarizes the ratings used by *S&P Global Ratings* for long-term issues:

“AAA” – An obligation rated “AAA” has the highest rating assigned by S&P Global Ratings. The obligor’s capacity to meet its financial commitments on the obligation is extremely strong.

“AA” – An obligation rated “AA” differs from the highest-rated obligations only to a small degree. The obligor’s capacity to meet its financial commitments on the obligation is very strong.

“A” – An obligation rated “A” is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher-rated categories. However, the obligor’s capacity to meet its financial commitments on the obligation is still strong.

“BBB” – An obligation rated “BBB” exhibits adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely to weaken the obligor’s capacity to meet its financial commitments on the obligation.

“BB,” “B,” “CCC,” “CC” and “C” – Obligations rated “BB,” “B,” “CCC,” “CC” and “C” are regarded as having significant speculative characteristics. “BB” indicates the least degree of speculation and “C” the highest. While such obligations will likely have some quality and protective characteristics, these may be outweighed by large uncertainties or major exposure to adverse conditions.

“BB” – An obligation rated “BB” is less vulnerable to nonpayment than other speculative issues. However, it faces major ongoing uncertainties or exposure to adverse business, financial, or economic conditions that could lead to the obligor’s inadequate capacity to meet its financial commitments on the obligation.

“B” – An obligation rated “B” is more vulnerable to nonpayment than obligations rated “BB”, but the obligor currently has the capacity to meet its financial commitments on the obligation. Adverse business, financial, or economic conditions will likely impair the obligor’s capacity or willingness to meet its financial commitments on the obligation.

“CCC” – An obligation rated “CCC” is currently vulnerable to nonpayment and is dependent upon favorable business, financial, and economic conditions for the obligor to meet its financial commitments on the obligation. In the event of adverse business, financial, or economic conditions, the obligor is not likely to have the capacity to meet its financial commitments on the obligation.

“CC” – An obligation rated “CC” is currently highly vulnerable to nonpayment. The “CC” rating is used when a default has not yet occurred but S&P Global Ratings expects default to be a virtual certainty, regardless of the anticipated time to default.

“C” – An obligation rated “C” is currently highly vulnerable to nonpayment, and the obligation is expected to have lower relative seniority or lower ultimate recovery compared with obligations that are rated higher.

“D” – An obligation rated “D” is in default or in breach of an imputed promise. For non-hybrid capital instruments, the “D” rating category is used when payments on an obligation are not made on the date due, unless S&P Global Ratings believes that such payments will be made within the next five business days in the absence of a stated grace period or within the earlier of the stated grace period or the next 30 calendar days. The “D” rating also will be used upon the filing of a bankruptcy petition or the taking of similar action and where default on an obligation is a virtual certainty, for example due to automatic stay provisions. A rating on an obligation is lowered to “D” if it is subject to a distressed debt restructuring

Plus (+) or minus (-) – Ratings from “AA” to “CCC” may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the rating categories.

“NR” – This indicates that a rating has not been assigned, or is no longer assigned.

Local Currency and Foreign Currency Ratings - S&P Global Ratings’ issuer credit ratings make a distinction between foreign currency ratings and local currency ratings. A foreign currency rating on an issuer can differ from the local currency rating on it when the obligor has a different capacity to meet its obligations denominated in its local currency, versus obligations denominated in a foreign currency.

Moody’s long-term ratings are forward-looking opinions of the relative credit risks of financial obligations with an original maturity of eleven months or more. Such ratings reflect both on the likelihood of default or impairment on contractual financial obligations and the expected financial loss suffered in the event of default or impairment. The following summarizes the ratings used by Moody’s for long-term debt:

“Aaa” – Obligations rated “Aaa” are judged to be of the highest quality, subject to the lowest level of credit risk.

“Aa” – Obligations rated “Aa” are judged to be of high quality and are subject to very low credit risk.

“A” – Obligations rated “A” are judged to be upper-medium grade and are subject to low credit risk.

“Baa” – Obligations rated “Baa” are judged to be medium-grade and subject to moderate credit risk and as such may possess certain speculative characteristics.

“Ba” – Obligations rated “Ba” are judged to be speculative and are subject to substantial credit risk.

“B” – Obligations rated “B” are considered speculative and are subject to high credit risk.

“Caa” – Obligations rated “Caa” are judged to be speculative of poor standing and are subject to very high credit risk.

“Ca” – Obligations rated “Ca” are highly speculative and are likely in, or very near, default, with some prospect of recovery of principal and interest.

“C” – Obligations rated “C” are the lowest rated and are typically in default, with little prospect for recovery of principal or interest.

Note: Moody’s appends numerical modifiers 1, 2, and 3 to each generic rating classification from “Aa” through “Caa.” The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

“NR” – Is assigned to unrated obligations, obligation and/or program.

The following summarizes long-term ratings used by *Fitch*:

“AAA” – Securities considered to be of the highest credit quality. “AAA” ratings denote the lowest expectation of credit risk. They are assigned only in cases of exceptionally strong capacity for payment of financial commitments. This capacity is highly unlikely to be adversely affected by foreseeable events.

“AA” – Securities considered to be of very high credit quality. “AA” ratings denote expectations of very low credit risk. They indicate very strong capacity for payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events.

“A” – Securities considered to be of high credit quality. “A” ratings denote expectations of low credit risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than is the case for higher ratings.

“BBB” – Securities considered to be of good credit quality. “BBB” ratings indicate that expectations of credit risk are currently low. The capacity for payment of financial commitments is considered adequate, but adverse business or economic conditions are more likely to impair this capacity.

“BB” – Securities considered to be speculative. “BB” ratings indicate an elevated vulnerability to credit risk, particularly in the event of adverse changes in business or economic conditions over time; however, business or financial alternatives may be available to allow financial commitments to be met.

“B” – Securities considered to be highly speculative. “B” ratings indicate that material credit risk is present

“CCC” – A “CCC” rating indicates that substantial credit risk is present.

“CC” – A “CC” rating indicates very high levels of credit risk.

“C” – A “C” rating indicates exceptionally high levels of credit risk.

Defaulted obligations typically are not assigned “RD” or “D” ratings but are instead rated in the “CCC” to “C” rating categories, depending on their recovery prospects and other relevant characteristics. Fitch believes that this approach better aligns obligations that have comparable overall expected loss but varying vulnerability to default and loss.

Plus (+) or minus (-) may be appended to a rating to denote relative status within major rating categories. Such suffixes are not added to the “AAA” obligation rating category, or to corporate finance obligation ratings in the categories below “CCC”.

“NR” – Is assigned to an unrated issue of a rated issuer.

The **DBRS** Morningstar long-term obligation ratings provide DBRS Morningstar’s opinion on the risk that investors may not be repaid in accordance with the terms under which the long-term obligation was issued. The obligations rated in this category typically have a term of one year or longer. All rating categories other than AAA and D also contain subcategories “(high)” and “(low)”. The absence of either a “(high)” or “(low)” designation indicates the rating is in the middle of the category. The following summarizes the ratings used by DBRS Morningstar for long-term debt:

“AAA” – Long-term debt rated “AAA” is of the highest credit quality. The capacity for the payment of financial obligations is exceptionally high and unlikely to be adversely affected by future events.

“AA” – Long-term debt rated “AA” is of superior credit quality. The capacity for the payment of financial obligations is considered high. Credit quality differs from “AAA” only to a small degree. Unlikely to be significantly vulnerable to future events.

“A” – Long-term debt rated “A” is of good credit quality. The capacity for the payment of financial obligations is substantial, but of lesser credit quality than “AA.” May be vulnerable to future events, but qualifying negative factors are considered manageable.

“BBB” – Long-term debt rated “BBB” is of adequate credit quality. The capacity for the payment of financial obligations is considered acceptable. May be vulnerable to future events.

“BB” – Long-term debt rated “BB” is of speculative, non-investment grade credit quality. The capacity for the payment of financial obligations is uncertain. Vulnerable to future events.

“B” – Long-term debt rated “B” is of highly speculative credit quality. There is a high level of uncertainty as to the capacity to meet financial obligations.

“CCC”, “CC” and “C” – Long-term debt rated in any of these categories is of very highly speculative credit quality. In danger of defaulting on financial obligations. There is little difference between these three categories, although “CC” and “C” ratings are normally applied to obligations that are seen as highly likely to default or subordinated to obligations rated in the “CCC” to “B” range. Obligations in respect of which default has not technically taken place but is considered inevitable may be rated in the “C” category.

“D” – A security rated “D” is assigned when the issuer has filed under any applicable bankruptcy, insolvency or winding up statute or there is a failure to satisfy an obligation after the exhaustion of grace periods. DBRS Morningstar may also use “SD” (Selective Default) in cases where only some securities are impacted, such as the case of a “distressed exchange”.

Municipal Note Ratings

An **S&P Global Ratings** U.S. municipal note rating reflects S&P Global Ratings’ opinion about the liquidity factors and market access risks unique to the notes. Notes due in three years or less will likely receive a note rating. Notes with an original maturity of more than three years will most likely receive a long-term debt rating. In determining which type of rating, if any, to assign, S&P Global Ratings’ analysis will review the following considerations:

- Amortization schedule - the larger the final maturity relative to other maturities, the more likely it will be treated as a note; and
- Source of payment - the more dependent the issue is on the market for its refinancing, the more likely it will be treated as a note.

Municipal Short-Term Note rating symbols are as follows:

“SP-1” – A municipal note rated “SP-1” exhibits a strong capacity to pay principal and interest. An issue determined to possess a very strong capacity to pay debt service is given a plus (+) designation.

“SP-2” – A municipal note rated “SP-2” exhibits a satisfactory capacity to pay principal and interest, with some vulnerability to adverse financial and economic changes over the term of the notes.

“SP-3” – A municipal note rated “SP-3” exhibits a speculative capacity to pay principal and interest.

“D” – This rating is assigned upon failure to pay the note when due, completion of a distressed debt restructuring, or the filing of a bankruptcy petition or the taking of similar action and where default on an obligation is a virtual certainty, for example due to automatic stay provisions.

Moody’s uses the global short-term Prime rating scale (listed above under Short-Term Credit Ratings) for commercial paper issued by U.S. municipalities and nonprofits. These commercial paper programs may be backed by external letters of credit or liquidity facilities, or by an issuer’s self-liquidity.

For other short-term municipal obligations, Moody’s uses one of two other short-term rating scales, the Municipal Investment Grade (“MIG”) and Variable Municipal Investment Grade (“VMIG”) scales provided below.

Moody’s uses the MIG scale for U.S. municipal cash flow notes, bond anticipation notes and certain other short-term obligations, which typically mature in three years or less. Under certain circumstances, Moody’s uses the MIG scale for bond anticipation notes with maturities of up to five years.

MIG Scale

“MIG-1” – This designation denotes superior credit quality. Excellent protection is afforded by established cash flows, highly reliable liquidity support, or demonstrated broad-based access to the market for refinancing.

“MIG-2” – This designation denotes strong credit quality. Margins of protection are ample, although not as large as in the preceding group.

“MIG-3” – This designation denotes acceptable credit quality. Liquidity and cash-flow protection may be narrow, and market access for refinancing is likely to be less well-established.

“SG” – This designation denotes speculative-grade credit quality. Debt instruments in this category may lack sufficient margins of protection.

“NR” – Is assigned to an unrated obligation, obligation and/or program.

In the case of variable rate demand obligations (“VRDOs”), a two-component rating is assigned. The components are a long-term rating and a short-term demand obligation rating. The long-term rating addresses the issuer’s ability to meet scheduled principal and interest payments. The short-term demand obligation rating addresses the ability of the issuer or the liquidity provider to make payments associated with the purchase-price-upon demand feature (“demand feature”) of the VRDO. The short-term demand obligation rating uses the VMIG scale. VMIG ratings with liquidity support use as an input the short-term Counterparty Risk Assessment of the support provider, or the long-term rating of the underlying obligor in the absence of third party liquidity support. Transitions of VMIG ratings of demand obligations with conditional liquidity support differ from transitions on the Prime scale to reflect the risk that external liquidity support will terminate if the issuer’s long-term rating drops below investment grade.

Moody’s typically assigns the VMIG short-term demand obligation rating if the frequency of the demand feature is less than every three years. If the frequency of the demand feature is less than three years but the purchase price is payable only with remarketing proceeds, the short-term demand obligation rating is “NR”.

“VMIG-1” – This designation denotes superior credit quality. Excellent protection is afforded by the superior short-term credit strength of the liquidity provider and structural and legal protections.

“VMIG-2” – This designation denotes strong credit quality. Good protection is afforded by the strong short-term credit strength of the liquidity provider and structural and legal protections.

“VMIG-3” – This designation denotes acceptable credit quality. Adequate protection is afforded by the satisfactory short-term credit strength of the liquidity provider and structural and legal protections.

“SG” – This designation denotes speculative-grade credit quality. Demand features rated in this category may be supported by a liquidity provider that does not have a sufficiently strong short-term rating or may lack the structural and/or legal protections.

“NR” – Is assigned to an unrated obligation, obligation and/or program.

About Credit Ratings

An *S&P Global Ratings* issue credit rating is a forward-looking opinion about the creditworthiness of an obligor with respect to a specific financial obligation, a specific class of financial obligations, or a specific financial program (including ratings on medium-term note programs and commercial paper programs). It takes into consideration the creditworthiness of guarantors, insurers, or other forms of credit enhancement on the obligation and takes into account the currency in which the obligation is denominated. The opinion reflects S&P Global Ratings’ view of the obligor’s capacity and willingness to meet its financial commitments as they come due, and this opinion may assess terms, such as collateral security and subordination, which could affect ultimate payment in the event of default.

Ratings assigned on *Moody’s* global long-term and short-term rating scales are forward-looking opinions of the relative credit risks of financial obligations issued by non-financial corporates, financial institutions, structured finance vehicles, project finance vehicles, and public sector entities.

Fitch’s credit ratings are forward-looking opinions on the relative ability of an entity or obligation to meet financial commitments. Issuer Default Ratings (IDRs) are assigned to corporations, sovereign entities, financial institutions such as banks, leasing companies and insurers, and public finance entities (local and regional governments). Issue-level ratings are also assigned, and often include an expectation of recovery, which may be notched above or below the issuer-level rating. Issue ratings are assigned to secured and unsecured debt securities, loans, preferred stock and other instruments. Credit ratings are indications of the likelihood of repayment in accordance with the terms of the issuance. In limited cases, Fitch may include additional considerations (i.e., rate to a higher or lower standard than that implied in the obligation’s documentation).

DBRS Morningstar offers independent, transparent, and innovative credit analysis to the market. Credit ratings are forward-looking opinions about credit risk that reflect the creditworthiness of an issuer, rated entity, security and/or obligation based on DBRS Morningstar’s quantitative and qualitative analysis in accordance with applicable methodologies and criteria. They are meant to provide opinions on relative measures of risk and are not based on expectations of, or meant to predict, any specific default probability. Credit ratings are not statements of fact. DBRS Morningstar issues credit ratings using one or more categories, such as public, private, provisional, finalized, solicited, or unsolicited. From time to time, credit ratings may also be subject to trends, placed under review, or discontinued. DBRS Morningstar credit ratings are determined by credit rating committees.

APPENDIX B

Summit Global Investments, LLC

Proxy Voting

Issue

Rule 206(4)-6 under the Advisers Act requires every investment adviser to adopt and implement written policies and procedures, reasonably designed to ensure that the adviser votes proxies in the best interest of its clients. The procedures must address material conflicts that may arise in connection with proxy voting. The Rule further requires the adviser to provide a concise summary of the adviser's proxy voting process and offer to provide copies of the complete proxy voting policy and procedures to clients upon request. Lastly, the Rule requires that the adviser disclose to clients how they may obtain information on how the adviser voted their proxies.

SUMMIT GLOBAL INVESTMENTS, LLC does vote proxies on behalf of its clients.

Policy

SUMMIT GLOBAL INVESTMENTS, LLC does vote proxies on behalf of its clients.

Procedures:

1. Upon receipt of proxy voting request, review items to be voted upon and Board recommendations.
2. Log into the proper online voting site and vote in accordance with Board recommendations unless otherwise notified by the Investment Committee.
3. Document the company, items voted on, and how SUMMIT GLOBAL INVESTMENTS, LLC voted on the proxy spreadsheet.

Procedures for SUMMIT GLOBAL INVESTMENTS, LLC's Receipt of Class Actions

The following procedures outline SUMMIT GLOBAL INVESTMENTS, LLC's receipt of "Class Action" documents from clients and custodians. It is SUMMIT GLOBAL INVESTMENTS, LLC's position not to file these "Class Action" documents, but if received will follow these guidelines:

1. If "Class Action" documents are received by SUMMIT GLOBAL INVESTMENTS, LLC from the ***Client***, SUMMIT GLOBAL INVESTMENTS, LLC will gather any requisite information it has and forward to the client, to enable the client to file the "Class Action" at the client's discretion. SUMMIT GLOBAL INVESTMENTS, LLC will not file "Class Actions" on behalf of any client.
2. Similarly, if "Class Action" documents are received by SUMMIT GLOBAL INVESTMENTS, LLC from the ***Custodian***, SUMMIT GLOBAL INVESTMENTS, LLC will gather any requisite information it has and forward to the client, to enable the client to file the "Class Action" at the client's discretion. SUMMIT GLOBAL INVESTMENTS, LLC will not file "Class Actions" on behalf of any client.
